Through Times of Trouble Anna Matveeva, 2017-12-20 This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia As such it provides a unique insight into their thinking and motivations which need to be understood if the conflict is to be resolved Those making and remaking the conflict are placed in the centre of the story which uses the words of the combatants themselves It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine Russia and different parts of the world stood at the rebellion's heart The book focuses on the participants' own voices and personalities drawing extensively on first hand research and interviews Rather than rendering Ukraine a chess piece on the geopolitical board the rebellion shows that ordinary people rather than elites can act as a decisive force Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high It stands as an important text on the study of modern insurgencies revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors This book places

this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle. The insurgency has produced a conflict sub culture rich with symbolism narrative and communications made possible by the digital age and a social media savvy population. These beliefs and ideas have had the power to pull people from different parts of the world. This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas. It analyses the logic of armed struggle and the tactics deployed by warring parties. It also sheds light on the developments in Moscow, discusses the phenomenon of the Russian Spring movement and concludes with the prospects for a peaceful solution.

Oral History and Business Robert Crawford, Matthew Bailey, 2022-08-22 This book introduces business historians to oral history methodologies and approaches. Using four distinct oral history case studies to explore ideas of disruption and continuity in business history over the second half of the twentieth century, Robert Crawford and Matthew Bailey demonstrate how critical engagement with oral history approaches serves to enhance and enliven business history as well as its relationship with other historical fields. The focus on disruption is used to encompass a broad set of processes such as technological change, the impact of external forces, informal business networks, social constructions of gender, knowledge transfer, firm adaptability and cultural change. The use of oral histories to interpret responses to disruption in the past and to explore the features characterising business continuity provides an opportunity to consider the human dimensions, subjective experiences and personal insights of workplace, firm and industry change. It also sheds light on the ways that people and firms respond to disruptive forces through innovation and adaptation, both successfully and unsuccessfully. This succinct and accessible account is essential reading for business historians with little experience in using oral history as well as those looking to gain deeper insights from their oral history data.

International Arbitration in the Energy Sector Maxi Scherer, 2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration. With more arbitrations arising in the international energy sector than in any other sector, it is not surprising that the highest valued awards in the history of arbitration come from energy-related arbitrations. Energy disputes often involve complex and controversial issues relating to security, sovereignty and public welfare. *International Arbitration in the Energy Sector* puts international energy disputes into a global context, providing broad coverage of different forms and systems of dispute resolution across both renewable and non-renewable sectors. With contributions from leading arbitrators, academics and industry experts from across the globe, the twenty chapters in the book enable readers to compare the approaches to, and learnings from, energy arbitrations across various legal systems and geographic regions. After outlining the international energy arbitration legal framework in Part I, the text delves into a detailed analysis of the problems which regularly arise in practice. These include, among other things, commercial disputes in Part II (e.g. over the upstream oil sector and long-term gas supply contracts), investor-state disputes in Part III (e.g. under the Energy Charter Treaty and public international law), disputes in Part IV (e.g. concerning international boundaries and the distribution of natural resources). Alongside recent developments in the international energy sector, attention is given to climate and sustainable development disputes which raise important questions about enforcing sustainability objectives on individuals, corporations and states. Backed by analyses of arbitral awards, national court and international tribunal decisions, treaties and other international legal instruments, as well as current events and news in the energy industry, this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field. It is essential reading for any practitioner or researcher in the energy and natural resources sector.

Understanding Mega Free Trade Agreements Jean-Baptiste Velut, Louise Dalingwater, Vanessa Boulet, Valérie Peyronel, 2017-08-23 The rise of cross regional trade agreements is a defining trend of the current international trade system as shown by the signing of the Trans Pacific Partnership TPP in 2015 the negotiations for the Transatlantic Trade and Investment Partnership TTIP between the USA and the EU as well as the Regional Comprehensive Economic Partnership RCEP between countries in Asia and Oceania These differ from previous agreements in their economic significance and large geographic scale and the wide scope of trade related issues The current rise of nationalist and isolationist ideologies across Europe and the USA has raised questions on the future of cross regional trade deals and made the need to understand their implications for economic and political governance ever more urgent Two main forms of governance that are central to this volume are the democratic tensions over new generation trade deals on the one hand and their geopolitical ramifications on the other which have come into collision to herald the advent of a highly uncertain period of world politics Many of the questions tackled in this volume surrounding the democratic governance of trade agreements whether long held debates on the inclusion of workers voices controversies on intrusive behind the border provisions undermining national sovereignty and local autonomy or new questions on digital rights are crucial to understand the ebbing popular support for far reaching trade agreements This book will be a useful learning tool for students and scholars in a wide range of fields including Globalisation Global Governance International Political Economy International Trade and Investment and International Law and should also be of interest to EU trade negotiators international policymakers and business associations

National Security, Democracy, and Good Governance in

Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria The Privatization of Everything Donald Cohen, Allen Mikaelian, 2021-11-23 The book the American Prospect calls an essential resource for future reformers on how not to govern by America s leading defender of the public interest and a bestselling historian An essential read for those who want to fight the assault on public goods and the commons Naomi Klein A sweeping expos of the ways in which private interests strip public goods of their power and diminish democracy the hardcover edition of The Privatization of Everything elicited a wide spectrum of praise Kirkus Reviews hailed it as a strong economics based argument for restoring the boundaries between public goods and private gains Literary Hub featured the book on a Best Nonfiction list calling it a far reaching comprehensible and necessary book and Publishers Weekly dubbed it a persuasive takedown of the idea that the private sector knows best From Diane Ravitch an important new book about the dangers of privatization to Heather McGhee a well researched call to action the rave reviews mirror the expansive nature of the book itself covering the impact of privatization

on every aspect of our lives from water and trash collection to the justice system and the military Cohen and Mikaelian also demonstrate how citizens can and are wresting back what is ours A Montana city took back its water infrastructure after finding that they could do it better and cheaper Colorado towns fought back well funded campaigns to preserve telecom monopolies and hamstringing public broadband A motivated lawyer fought all the way to the Supreme Court after the state of Georgia erected privatized paywalls around its legal code Enlightening and sobering Rosanne Cash The Privatization of Everything connects the dots across a wide range of issues and offers what Cash calls a progressive voice with a firm eye on justice that can carefully parse out complex issues for those of us who take pride in citizenship
