Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd,2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal

The Middle and Upper Paleolithic Archeology of the Levant and Beyond Yoshihiro Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern Humans which took place between November 30 and December 6 2014 in Hokkaido Japan Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia

Assembling Bus Rapid Transit in the Global South Malve Jacobsen, 2020-12-13 This book explores the mobile ethnography of Dar es Salaam where consultants and politicians have planned and implemented a bus rapid transit BRT system for two decades It analyses the dual processes

of assembling BRT in the Tanzanian metropolis and establishing BRT as a policy model of and for the Global South The book elucidates how policy models are constructed and circulated around the globe and depicts the processes by which they are translated between and materialise within specific contexts It presents the case of BRT to demonstrate how technocrats shape these processes through persuasive work aimed at disseminating and stabilising this transport model and how local actors influence its adaptation in Dar es Salaam The book adopts a double mobility approach to show how this ethnography follows travelling consultants circulating policies and moving buses to explore the fluidity of the BRT model Linking key debates in policy mobility studies and Science and Technology Studies enriched with postcolonial perspectives and geographies of transport and infrastructure it offers new insights into the technopolitics of planning and implementing infrastructure systems This book will appeal to academics and students of human geography transport studies science and technology studies and African and development studies interested in the technopolitics of transport planning

Conflict Areas in the Balkans Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans such as the solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union

Earned Citizenship Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today The majority of unauthorized immigrants in the U S have been here for more than five years and are settling into American communities working forming families and serving in the military even though they may be detained and deported if they are discovered An open question remains as to what to do about unauthorized immigrants who are already living in the United States On one hand it is important that the government sends a message that future violations of immigration law will not be tolerated On the other sits a deeper ethical dilemma that is the focus of this book what do the state and citizens owe to unauthorized immigrants who have served their adopted country Earned Citizenship argues that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities Their service would act as restitution for immigration law violations Military service in particular would merit naturalization in countries with a strong citizen soldier tradition including the United States The book also considers the civic value of caregiving as a service to citizens and

the country contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work As a whole Earned Citizenship provides a non humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation

Did She Kill Him? Kate Colquhoun,2014-03-06 In the summer of 1889 young Southern belle Florence Maybrick stood trial for the alleged arsenic poisoning of her much older husband Liverpool cotton merchant James Maybrick The Maybrick Mystery had all the makings of a sensation a pretty flirtatious young girl resentful gossiping servants rumours of gambling and debt and torrid mutual infidelity The case cracked the varnish of Victorian respectability shocking and exciting the public in equal measure as they clambered to read the latest revelations of Florence s past and glimpse her likeness in Madame Tussaud s Florence s fate was fiercely debated in the courtroom on the front pages of the newspapers and in parlours and backyards across the country Did she poison her husband Was her previous infidelity proof of murderous intentions Was James own habit of self medicating to blame for his demise Historian Kate Colquhoun recounts an utterly absorbing tale of addiction deception and adultery that keeps you asking to the very last page did she kill him

Beyond Control James F. Barnett Jr.,2017-03-16 *Beyond Control* reveals the Mississippi as a waterway of

change unnaturally confined by ever larger levees and control structures During the great flood of 1973 the current scoured a hole beneath the main structure near Baton Rouge and enlarged a pre existing football field size crater That night the Mississippi River nearly changed its course for a shorter and steeper path to the sea Such a map changing reconfiguration of the country s largest river would bear national significance as well as disastrous consequences for New Orleans and towns like Morgan City at the mouth of the Atchafalaya River Since 1973 the US Army Corps of Engineers Control Complex at Old River has kept the Mississippi from jumping out of its historic channel and plunging through the Atchafalaya Basin to the Gulf of Mexico Beyond Control traces the history of this phenomenon beginning with a major channel shift around 3 000 years ago By the time European colonists began to explore the Lower Mississippi Valley a unique confluence of waterways had formed where the Red River joined the Mississippi and the Atchafalaya River flowed out into the Atchafalaya Basin A series of human alterations to this potentially volatile web of rivers starting with a bend cutoff in 1831 by Captain Henry Miller Shreve set the forces in motion for the Mississippi s move into the Atchafalaya Basin Told against the backdrop of the Lower Mississippi River s impending diversion the book s chapters chronicle historic floods rising flood crests a changing strategy for flood protection and competing interests in the management of the Old River outlet Beyond Control is both a history and a close look at an inexorable living process happening now in the twenty first century *Globalization and Urbanization* James H. Spencer, 2014-06-26 During the past decade the world reached the point of becoming more urban than not as the majority of people on the planet now live not in small towns or villages but in provincial national and global cities Scholars have long been fascinated by so called global cities world cities and the urban engines of the global economy James H Spencer argues however that such an emphasis misses the central fact that urbanization goes well beyond the usual suspects of New York Tokyo London and Shanghai The author charts urbanization across the Global South and North resulting in what he describes as a planetary global urban ecosystem This concept challenges us to realize that in daily life their similar physical and social ecosystems that make cities more understandable to each other than to their own rural hinterlands Spencer s vivid case studies of Addis Ababa Ho Chi Minh City Honolulu and New York draw out the commonalities of our intertwined built and social environments and how they express a shared humanity across continents and cultures *Cooperatives in New Orleans* Anne Gessler, 2020-06-04 Cooperatives have been central to the development of New Orleans Anne Gessler asserts that local cooperatives have reshaped its built environment by changing where people interact and with whom helping them collapse social hierarchies and envision new political systems Gessler tracks many neighborhood cooperatives spanning from the 1890s to the present whose alliances with union consumer and social justice activists animated successive generations of regional networks and stimulated urban growth in New Orleans Studying alternative forms of social organization within the city s multiple integrated spaces women people of color and laborers blended neighborhood based African Caribbean and European communal activism with international cooperative principles

to democratize exploitative systems of consumption production and exchange From utopian socialist workers unions and Rochdale grocery stores to black liberationist theater collectives and community gardens these cooperative entities integrated marginalized residents into democratic governance while equally distributing profits among members Besides economic development neighborhood cooperatives participated in heady debates over urban land use applying egalitarian cooperative principles to modernize New Orleans s crumbling infrastructure monopolistic food distribution systems and spotty welfare programs As Gessler indicates cooperative activists deployed street level subsistence tactics to mobilize continual waves of ordinary people seizing control over mainstream economic and political institutions
