Beyond the Bubble Test Linda Darling-Hammond, Frank Adamson, 2014-06-16

Performance assessment is a hot topic in school systems and educators continue to analyze its costs benefits and feasibility as a replacement for high stakes testing Until now researchers and policymakers have had to dig to find out what we know and what we still have to learn about performance assessment

Beyond the Bubble Test How Performance Assessments Support 21st Century Learning synthesizes the latest findings in the field and not a moment too soon Statistics indicate that the United States is in danger of falling behind if it fails to adapt to our changing world The memory and recall strategies of traditional testing are no longer adequate to equip our students with the skills they need to excel in the global economy Instead teachers need to engage students in deeper learning assessing their ability to use higher order skills Skills like synthesizing information understanding evidence and critical problem solving are not achieved when we teach to multiple choice exams Examples in Beyond the Bubble Test paint a useful picture of how schools can begin to supplement traditional tests with something that works better This book provides new perspectives on current performance assessment research plus an incisive look at what s possible at the local and state levels Linda Darling Hammond with a team of leading scholars bring together lessons learned new directions and solid recommendations into a single readily accessible compendium

Beyond the Bubble Test situates the current debate on performance assessment within the context of testing in the United States This comprehensive resource also looks beyond our U S borders to Singapore Hong Kong and other places whose reform mindedness can serve as an example to us

Incarceration Erica R. Meiners, Maisha T. Winn, 2014-07-16 The United States of America is in possession of the largest prison population in the world with 2.3 million people currently behind bars This number is predominantly and disproportionately made up of communities of colour and poverty Between 1987 and 2007 the U.S. prison population tripled the direct result of various tough on crime public policies Organizers and scholars use the term prison industrial complex PIC to name the structure that encompasses the expanding economic and political contexts of the detention and corrections industry in the USA The PIC is a network that sutures capital communities and the State to a permanent punishment economy The term the PIC aims to capture the range of material and ideological forces that shape the growth of detention

the political and lobbying power of the corrections officers unions the framing of prisons and jails as a growth industry in the context of deindustrialization the production and sales of technology and security required to maintain and expand the state of incarceration and the naturalization of isolation as a logical response to harm Education and Incarceration highlights the significance of centering agency and autonomy and documents scholars who work to be accountable to justice movements and communities not simply to academic disciplines or to research Additionally as emerging scholars committed to challenging the PIC these authors struggle to build multi layered analytic and material tools for resistance within and beyond the walls of schools jails and prisons This book provides snapshots of practices in motion activist scholars working to engage to be accountable to families communities and larger justice movements and to build abolition democracies This book was originally published as a special issue of Race Ethnicity and Education
