between individuals with family ties that shape the interaction between family and business business families with multiple businesses how business families adopt formal rules and processes around their joint activities and the institutionalization of wealth and business families in society The De Gruyter Handbook of Business Families fills a gap in the family business research literature and is an essential reference work for researchers and graduate level students in the area of business families

The Oxford Handbook of Iranian History Touraj Daryaee, 2012-02-16. This Handbook is a current, comprehensive single volume history of Iranian civilization. The authors, all leaders in their fields, emphasize the large-scale continuities of Iranian history while also describing the important patterns of transformation that have characterized Iran's past. Each of the chapters focuses on a specific epoch of Iranian history and surveys the general political, social, cultural, and economic issues of that era. The ancient period begins with chapters considering the anthropological evidence of the prehistoric era through to the early settled civilizations of the Iranian plateau and continuing to the rise of the ancient Persian empires. The medieval section first considers the Arab-Muslim conquest of the seventh century and then moves on to discuss the growing Turkish influence filtering in from Central Asia beginning in the tenth and eleventh centuries. The last third of the book covers Iran in the modern era by considering the rise of the Safavid state and its accompanying policy of centralization, the introduction of Shi'ism, the problems of reform and modernization in the Qajar and Pahlavi periods, and the revolution of 1978-79 and its aftermath. The book is a collaborative exercise among scholars specializing in a variety of sub-fields and across a number of disciplines, including history, art history, classics, literature, politics, and linguistics. Here, readers can find a reliable and accessible narrative that can serve as an authoritative guide to the field of Iranian studies.
