King, O.R. Inderwildi, New Generation of Electric Vehicles Zoran Stevic, 2012-12-19 Important factor in political decision making is a public opinion as well Therefore it is very important to raise global ecological awareness and wider public education regarding ecology Goal of this book is to bring closer to the readers new drive technologies that are intended to environment and nature protection The book presents modern technique achievements and technologies applied in the implementation of electric vehicles Special attention was paid to energy efficiency of EV s Also today s trends mathematical models and computer design elements of future cars are presented **Whole Green Catalog** Michael W.

Robbins, 2009-09-01 A consumer s reference to green living counsels readers on how to identify truly eco friendly products and includes reviews and advice for everything from home furnishings and appliances to toys and clothing Original The Threefold Logic of Advanced Architecture Manuel Gausa, Jordi Vivaldi, 2021-04-15 During the last 30 years Advanced Architecture has consolidated an interactive and informational logic that differs from that of Modernity and Postmodernity This logic is threefold it is modulated through three coexisting protocols modes of action whose peaks of intensity occur in three different decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 This work proposes a threefold cultural narrative whose interactive and informational logic differs from that of modernity and postmodernity It positions three different ethos by critically approaching the architectural side of a cultural mutation that has been affecting the Western experimental areas of knowledge and practice since the end of the last century A transformative process constituted by a constellation of transdisciplinary manifestations accelerations turns shortcuts and clusterizations that by no means can be read under one single epistemological umbrella In this sense rather than approaching the practice of architecture focusing on its disciplinary inner specificity this book approaches the research of experimental architecture focusing on its extra disciplinary entanglements It argues that a vast multiplicity of fields of knowledge participates in a cultural endeavour modulated through three protocols forms of action that singularize three decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 These three periods shouldn t be read as three hermetic and concatenated monades but as three different modulations of the same narrative that is as three overlapping and coexisting systems whose peaks of intensity occur in three different decades However the main purpose of this book is not limited to unveiling the ethos of these three conjugations It also aims at using this framework as a time field a narrative map that moves from the classificatory to the cartographical in order to vectorize the last 30 years of experimental architecture In this sense this book argues that this threefold set of protocols represents

the progressive attempt to constitute critical interiorities looking for and produced through interactions that are increasingly more intimate and whose agents are increasingly more diverse A tendency oriented towards the consolidation of an intimacy between strangers that highly resonates with the cultural and technological landscape in which experimental architecture operates

Sports Cars James Mann,2011 The sports car has always been the ultimate symbol of automotive fun and freedom from the earliest Bentleys and Stutzes through the Porsche Boxster and Lotus Elise of today Sports Cars profiles over 50 cars from the early twentieth century to today with lavish color photography from renowned automotive lensman James Mann This book will surely grab the attention of any sports car lover **The Michigan Journal** ,2008
