Interpretive Approaches to Global Climate Governance Chris Methmann,Delf Rothe,Benjamin Stephan,2013-06-03 Global climate change is perceived to be one of the biggest challenges for international politics in the 21st century This work seeks to fuse a global governance perspective together with different interpretive approaches offering a novel way of looking at international climate politics Equipped with a common interpretive tool kit the authors examine different issue areas and excavate the contours of an overall pattern the depoliticisation of climate governance It is this concept which represents the overarching theme connecting the different contributions addressing issues such as how the securitization of climate change conceals its socio economic roots how highly political decisions and value judgements are couched in the terms of science how the reframing of climate change as a matter of economic calculation and investment narrows the scope of political action and how the prevailing concentration on technological solutions to climate change turns it into a mere administrative issue to be tackled by experts Highlighting the depoliticisation of highly political issues provides a means to bring the political back into one of the most important issue areas of 21st century world politics The editors have assembled a series of 14 interpretive inquiries into discourses of global climate governance which aim to flesh out an interpretive methodology demonstrating the value it offers to those seeking to achieve a better understanding of global climate governance This work will be of great interest to students and scholars of environmental politics political theory and climate change The Travel & Tourism Report 2008 ,2008 **Carbon Management for a Sustainable Environment** Shelley W. W. Zhou,2020-03-03 This textbook presents students with a systematic approach for the quantification and management of greenhouse gas emissions GHG and provides best practices for optimal carbon management and quantification The book begins with an overview of climate change basics and goes on to discuss carbon footprint measurements carbon management concepts and concludes by presenting carbon reduction solutions with applications for green buildings smart transportation waste management and carbon trading and offsetting The author provides practical examples and carbon management models that support innovative reduction solutions and presents a roadmap for the implementation and development of carbon management strategies making it a useful resource for both upper undergraduate and graduate students as well as practitioners seeking a comprehensive framework to conduct carbon management **Global Pension Challenges** Patrick J. Ring,Jonquil Lowe,Lien Luu,2024-03-25 National pension systems face a range of tough social and economic demands and pressures These are complex to navigate especially in a twenty first century world that has ushered in global uncertainty and pressing challenges even threatening the planet s very sustainability with implications for pensions that policymakers financial services providers and individuals themselves must address This book probes and unpacks what pension systems aim to achieve the uncertainties they face and how they are attempting to resolve them Analysing pension provision from the

systemic political economy and individual perspectives it sets out and contextualises commonalities and differences in pension systems across the globe looking at current developments in both public and private pension provision structures and regulation Moreover the reader is encouraged to question how national pension systems can best serve their populations and ensure the sustainability of later life incomes in the light of today's global pension challenges *Global Pension Challenges Pensions Saving and Retirement in the Twenty First Century* is an essential read for business finance and social policy academics and students those working in the pensions industry and in the areas of welfare reform and advocacy as well as the general public wishing to know more about the retirement issues we will all face in the coming years
