Financial Reporting Handbook Michael R. Young, 2003 Never before has a single reference provided such quick access to every critical aspect of financial reporting. In addition to covering the new Sarbanes Oxley legislation, SEC rules, and regulations, and corporate governance standards promulgated by the Independence Standards Board and the AICPA at institutions such as New York Stock Exchange, NASDAQ, and the American Stock Exchange, the Financial Reporting Handbook tackles important underlying themes such as the centrality of the audit committee, the individual responsibility of executives, and the integrity of the outside auditor. Domestic Regulation and Service Trade Liberalization Pierre Sauve, Aaditya Mattoo, 2003-08-29 Trade in services far more than trade in goods is affected by a variety of domestic regulations ranging from qualification and licensing requirements in professional services to pro competitive regulation in telecommunications services. Experience shows that the quality of regulation strongly influences the consequences of trade liberalization. WTO members have agreed that a central task in the ongoing services negotiations will be to develop a set of rules to ensure that domestic regulations support rather than impede trade liberalization. Since these rules are bound to have a profound impact on the evolution of policy, particularly in developing countries, it is important that they be conducive to economically rational policy making. This book addresses two central questions: What impact can international trade rules on services have on the exercise of domestic regulatory sovereignty? And how can services negotiations be harnessed to promote and consolidate domestic policy reform across highly diverse sectors? The book, with contributions from several of the world's leading experts in the field, explores a

range of rule making challenges arising at this policy interface in areas such as transparency standards and the adoption of a necessity test for services trade Contributions also provide an in depth look at these issues in the key areas of accountancy energy finance health telecommunications and transportation services EASTERN EUROPE Major Banks, Financial, and Insurance Companies Directory , *SEC Docket* United States.
