Jones, 2010. Many teachers of students with mild disabilities experience difficulty writing IEPs and they lack a foundation in the regular education curriculum of academic skills and sequences associated with each grade level. This book was designed to provide this foundation. Presented in the form of scope and sequence charts that can be used as objectives for the State Frameworks goals and benchmarks, this resource assists in preparing IEPs including the new process of identification of children with disabilities through their responses to intervention RTI. An additional focus is on the impact of federal laws IDEA and NCLB on the curriculum and assessment in schools today. The book has been reorganized into ten chapters including historical perspectives, early childhood special education curricula, oral expression curricula, reading and listening curricula, written expression curricula, mathematics curricula, educational technology curricula, K-12 social and self-competence curricula, science curricula, and evaluation reports, case studies. Appendix. The scope and sequence charts were modified to include current national education standards and benchmarks and the skills in each of the academic areas that require annual state assessment. These charts will assist teachers in modifying the general education
