**Communication Campaigns and National Integration in China's Market Economy Era** Yanru Chen, 2015-09-01 This book adopts the method of grounded theory in studying national communication campaigns in China referred to as propaganda campaigns in the Chinese linguistic context The study provides an exploratory and descriptive analysis of the ways in which the media in China fulfilled their function of building a Socialist spiritual civilisation and maintaining national integration during state propaganda campaigns Explanations for the success and limitations of the campaigns are clearly expressed and combined with cautious statements on the limited role of the media in the process of national integration The three major communication campaigns detailed in this book offer revelations regarding how to maintain mass morale and revive the national spirit at a time when economic pursuits and aspirations seem to be the top priority for individuals and institutions A chief premise underpinning this study is that economic growth is not to be equated with social progress or human development the latter encompassing a far more profound spiritual dimension which takes far more delicate efforts to accomplish

Levine,2005-07-15 Often referred to as The Forgotten War the Korean War was the only post World War II combat between major powers According to evidence provided in this study it was also a crucial episode of the Cold War more crucial perhaps than the war in Vietnam This military and political history of the Korean War endeavors to give a fresh and less than fashionable account of the war Utilizing both immediately postwar impressions and newly available evidence from Communist sources it places the events in Korea into the larger framework of the early 1950s period of the Cold War Beginning chapters discuss the escalation of early Cold War era world events from the final days of World War II to the first days of the Korean War and detail the inevitability of Western intervention in the Korean conflict The chapters that follow supply a broad account of the military aspect of the war focusing on its grand strategy what is now known of the Communist side in Korea the problems and achievements of the South Korean forces and the often underestimated war in the air Considerable attention is also given to matters in Europe and elsewhere such as German rearmament and the Japanese peace treaty that are revealed to have been not far removed from Korea The author espouses several original theories regarding Stalin s interpretation of the Korean conflict as a preliminary phase of World War III and the probability that the Communists did intend to extend the war beyond both the confines of Korea and the armistice negotiations of 1951 Concluding commentary attributes the end of the first phase of the Cold War to the Korean armistice but the nature of the remaining phases to the polarization of powers that was intensified by the fight for ideological dominance in Korea     *Michigan Business Review* ,1963     Translations of the Peking Gazette ,1883     **Mao's Road to Power: The pre-Marxist period, 1912-1920** Zedong Mao,Stuart Reynolds Schram,1992 Minutes of the Third Day of the First Enlarged Meeting of the General Front Committee of the First Front Army of the Red Army June 22     Monthly Climatic Data for World ,1965
