

NOTES ON MARKING PRINCIPLES

- 1 All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- 2 Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- 3 All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- 4 Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- 5 Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.
- 6 Mark schemes will indicate within the table where, and which strands of QWC, are being assessed. The strands are as follows:
 - i) **ensure that text is legible and that spelling, punctuation and grammar are accurate so that meaning is clear**
Comprehension and meaning is clear by using correct notation and labelling conventions.
 - ii) **select and use a form and style of writing appropriate to purpose and to complex subject matter**
Reasoning, explanation or argument is correct and appropriately structured to convey mathematical reasoning.
 - iii) **organise information clearly and coherently, using specialist vocabulary when appropriate.**
The mathematical methods and processes used are coherently and clearly organised and the appropriate mathematical vocabulary used.
