1Q84 Two Haruki Murakami:

1Q84 Haruki Murakami,2011-10-25 The long awaited magnum opus from Haruki Murakami in which this revered and bestselling author gives us his hypnotically addictive mind bending ode to George Orwell s 1984 The year is 1984 Aomame is riding in a taxi on the expressway in a hurry to carry out an assignment Her work is not the kind that can be discussed in public When they get tied up in traffic the taxi driver suggests a bizarre proposal to her Having no other choice she agrees but as a result of her actions she starts to feel as though she is gradually becoming detached from the real world She has been on a top secret mission and her next job leads her to encounter the superhuman founder of a religious cult Meanwhile Tengo is leading a nondescript life but wishes to become a writer He inadvertently becomes involved in a strange disturbance that develops over a literary prize While Aomame and Tengo impact on each other in various ways at times by accident and at times intentionally they come closer and closer to meeting Eventually the two of them notice that they are indispensable to each other Is it possible for them to ever meet in the real world

Murakami Chikako Nihei,2019-05-03 Haruki Murakami Storytelling and Productive Distance studies the evolution of the monogatari or narrative and storytelling in the works of Haruki Murakami Author Chikako Nihei argues that Murakami s power of monogatari lies in his use of distancing effects storytelling allows individuals to cross into a different context

through which they can effectively observe themselves and reality His belief in the importance of monogatari is closely linked to his generation's experience of the counter culture movement in the late 1960s and his research on the 1995 Tokyo Sarin Gas Attack caused by the Aum shinrikyo cult major events in postwar Japan that revealed many people's desire for a stable narrative to interact with and form their identity from **Approaches to World Literature** Joachim Küpper, 2013-12-20

Formulations Andrew Witt, 2022-01-11 An investigation of mathematics as it was drawn encoded imagined and interpreted by architects on the eve of digitization in the mid twentieth century In Formulations Andrew Witt examines the visual methodological and cultural intersections between architecture and mathematics The linkages Witt explores involve not the mystic transcendence of numbers invoked throughout architectural history but rather architecture s encounters with a range of calculational systems techniques that architects inventively retooled for design Witt offers a catalog of mid twentieth century practices of mathematical drawing and calculation in design that preceded and anticipated digitization as well as an account of the formal compendia that became a cultural currency shared between modern mathematicians and modern architects Witt presents a series of extensively illustrated biographies of method episodes that chart the myriad ways in which mathematics particularly the mathematical notion of modeling and drawing was spliced into the creative practice of design These include early drawing machines that mechanized curvature the incorporation of

geometric maquettes theorems made flesh into the toolbox of design the virtualization of buildings and landscapes through surveyed triangulation and photogrammetry formal and functional topology stereoscopic drawing the economic implications of cubic matrices and a strange synthesis of the technological mineral and biological crystallographic design Trained in both architecture and mathematics Witt uses mathematics as a lens through which to understand the relationship between architecture and a much broader set of sciences and visual techniques Through an intercultural exchange with other disciplines he argues architecture adapted not only the shapes and surfaces of mathematics but also its values and epistemic ideals

Haruki Murakami and the Search for Self-Therapy Jonathan Dil,2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami s fiction in other words can be read as a search for self therapy In five chapters which explore Murakami s fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami s fiction that can be traced back to his personal traumas most notably Murakami s falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami s published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture
