Differentiating Instruction for Gifted Learners Christine L. Weber, Wendy A. Behrens, Cecelia Boswell, 2021-09-03

Differentiating Instruction for Gifted Learners allows educators and stakeholders to examine issues related to differentiating curriculum and instruction in a variety of contexts. The case studies in this rich resource analyze various differentiation strategies and their benefits to promote classrooms where every student belongs, every student is valued, and every student is nurtured. The cases facilitate conversations about children and their unique needs by situating learning in authentic and meaningful contexts with the goal of helping educators improve services and programs for gifted and talented students. Things to Consider guide the reader's thinking without imparting an explicit action recommendation or solution. Discussion questions, activities, extensions, and suggestions for additional readings support the standards of excellence set forth in the revised NAGC CEC Teacher Preparation Standards in Gifted and Talented Education and the NAGC CEC Advanced Standards in Gifted Education Teacher Preparation. *Enrichment Ideas: Sparkling Fireflies* Ruth Kearney Carlson, 1970

The Routledge International Companion to Gifted Education is a ground-breaking collection of fully referenced chapters written by many of the most highly respected authorities on the subject from around the world. This multi-faceted volume highlights strategies to support giftedness in children, providing ideas that work and weeding out those that don't. It is written in jargon-free language in an easy-to-use, themed format. It is the most authoritative collection of future-focused views, ideas, and reflections, practices, and evaluations yet produced. It includes chapters dealing with the major controversies and concerns in the field today, from the problems of identification to changing understandings of giftedness and creativity. The international aspect of the Companion and its juxtaposition of points of view, whereby chapters are deliberately positioned and accompanied by editorial commentary to highlight the contrasts with each other, ensures that different views are addressed, allowing the reader to absorb and reflect upon the many perspectives on each issue. The Companion is a guide to the new ideas and controversies.
