these service sheets were issued individually and at random times the numbering sequence within any group is at times illogical and not necessarily consecutive Consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motor cycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles The most complete compilation of the 1945 and onwards service sheets was issued by BSA in the form of a dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages it is extremely scarce and difficult to find This manual includes the 27 service sheets 84 pages published by BSA under part number 00 4020 However an additional 15 service sheets have been added from that dealer only publication to produce a single manual containing 42 service sheets 150 pages that cover the 1948 to 1966 rigid spring frame swing arm D1 D3 D5 and D7 Bantam Obviously as the 1966 D10 and the 1968 to 1970 D14 models share many mechanical similarities with the D7 this manual will also be of use to owners of those later models Please note that service sheets other than those in the 500 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention For additional information the reader is directed to *The Book of the BSA Bantam* ISBN 9781588502100 which covers all Bantam models from 1948 to 1971

BSA Dandy 1957-1962 Workshop Manual Floyd Clymer, Velocepress, 2022-04-26 106 pages and more than 75 illustrations and charts size 8 25 x 10 75 inches This manual is a compilation of three factory publications including the How to ride the BSA Dandy instruction manual the parts spares manual and a compilation of specific dealer only service sheets It should be noted that BSA never published a workshop manual for the Dandy however the combination of these three factory publications provides the most comprehensive maintenance and repair information that was ever made available from the manufacturer **MANUALS TECHNICAL PUBLICATIONS SERVICE SHEETS** In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets It should be noted that BSA never intended that these service sheets would be distributed to the general public they were dealer only publications Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960 s **INSTRUCTION MANUAL** BSA published an Instruction Manual titled *How to ride the BSA Dandy* This publication was somewhat more detailed than most typical owner s manuals as it included basic overhaul information in addition to general maintenance and adjustments However when used in conjunction with the Service Sheets they are a

reasonable substitute for a workshop manual PARTS or SPARES MANUAL The parts manual includes exploded component diagrams which are extremely helpful in the rebuilding or restoration process MEET THE PUBLISHER VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product We encourage you to exercise caution when purchasing a manual for your motorcycle as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years With more than 250 titles in print VelocePress is one of the fastest growing specialty automobile and motorcycle publishing companies in the USA Please visit our website at www.VelocePress.com for more information on our company and our books
