Report of the Librarian and Annual Supplement to the General Catalogue State Library of Massachusetts, 1895 **Preparing Teachers to Teach with Technology** Charalambos Vrasidas, Gene V Glass, 2005-06-01

Teacher preparation programs in the United States and around the world have finally begun to address this deficiency in their programs. The realization that technology is a powerful driving force in education, coupled with a renewed emphasis on teacher preparation by governments, have resulted in some dramatic changes in teacher preparation programs. I believe that we have just begun to see changes in teacher preparation and that the pace of change will continue to accelerate. This volume covers some of the more exciting developments in the field, including the emergence of wireless computing in the classroom and the preparation of teachers in an online environment. In short, I am optimistic. For those of you who are also in the field, I think you will agree. For those who are just entering the field, this book is a great place to start as you change education. Finally, while this book is the last book of the three-part series that we at CAIT conceptualized with Charalambos Vrasidas and Gene Glass, it is also the beginning of a new relationship. We are excited to join with a new partner, CARDET, to present this book. Over many years in the education and R/D field, I have come to realize the value of partnerships and relationships. I want to thank both Charalambos and Gene for making this series a reality and such a success. We are looking forward to working with them and CARDET in the near future.

The second edition of Susan J. MacLagan's *A Dictionary for the Modern Flutist* presents clear and concise definitions of more than 1,600 common flute-related terms that a player of the Boehm system or Baroque flute may encounter. Fully illustrated with more than 150 images, the entries describe flute types, flute parts, playing techniques, acoustics, articulations, intonation, common ornaments, flute making and repairs, flute history, flute music books, and many more topics. Unique to the second edition are entries on beatbox techniques and muscles of the face and throat. Entries now also feature bibliographic cross-references for further research. Carefully labeled illustrations for many flute types, parts, mechanisms, and accessories help make definitions easier to visualize. Appendixes provide further information on such subjects as flute classifications, types of flutes, and their parts, key and tone hole names, head joint options, orchestra, and opera.

audition excerpts and biographies of people mentioned in the definitions Contributed articles include An Easy Guide to Checking Your Flute Tuning and Scale by Trevor Wye Flute Clutches by David Shorey Early Music on Modern Flute by Barthold Kuijken and Crowns and Stoppers and Boehm Flute Scales from 1847 to the Present The Short Story by Gary Lewis MacLagan's A Dictionary for the Modern Flutist second edition is an essential reference volume for flutists of all levels and for libraries supporting student professional and amateur musicians
