Camp TV of the 1960s Isabel Cristina Pinedo, Wyatt D. Phillips, 2023 Camp TV of the 1960s offers a comprehensive understanding of all of the many forms camp TV took during that critical decade In reevaluating the history of camp on television the authors reconsider the infantilized conceptualization of sixties television which has generally been characterized as the creative and cultural ebb between the 1950s Golden Age of television and the networks shift to relevance in the early 1970s Encompassing contributions from a broad range of media and television scholars that re consider programs like Batman The Monkees The Addams Family Bewitched F Troop The Beverly Hillbillies and Rowan British camp television programs such as The Avengers the use of musical codes to convey camp humor even on black and white sets the role that the viewing strategies of queer communities played and continued to play even decades later and how camp s multivalence allowed for more conservative readings especially among older audiences which were critical for the move to mass camp throughout American culture by the early seventies Camp TV of the 1960s is essential reading for students and scholars in television studies and others interested in the history and theory of camp the 1960s or popular culture as well as fans of these well known but generally understudied television programs **Transforming the Screen, 1950-1959** Peter Lev, 2003 Covering a tumultuous period of the 1950s this work explores the divorce of movie studios from their theater chains the panic of the blacklist era the explosive emergence of science fiction as the dominant genre and the rise of television and Hollywood s response with widescreen spectacles *Historical Dictionary of the 1960s* James S. The Rise of Cable Programming in the United States Megan Mullen,2009-06-23 Winner McGannon Communications Research Award 2004 In 1971 the Sloan Commission on Cable Communications likened the ongoing developments in cable television to the first uses of movable type and the invention of the telephone Cable s proponents in the late 1960s and early 1970s hoped it would eventually remedy all the perceived ills of broadcast television including lowest common denominator programming inability to serve the needs of local audiences and failure to recognize the needs of cultural minorities Yet a quarter century after the blue sky era cable television programming closely resembled and indeed depended upon broadcast television programming Whatever happened to the Sloan Commission s revolution now in sight In this book Megan Mullen examines the first half century of cable television to understand why cable never achieved its promise as a radically different means of communication Using textual analysis and oral archival and regulatory history she chronicles and analyzes cable programming developments in the United States during three critical stages of the medium s history the early community antenna CATV years 1948 1967 the optimistic blue sky years 1968 1975 and the early satellite years 1976 1995 This history clearly reveals how cable s roots as a retransmitter of broadcast signals the regulatory constraints that stymied innovation and the economic success of cable as an outlet for broadcast or broadcast type programs all combined to defeat most utopian visions for cable programming
