With a firm understanding of the fundamentals, you can take this comprehensive guide and complete a wide range of electrical projects that enhance the performance and functionality of a vehicle. In this revised edition, formerly titled Automotive Electrical Performance Projects, brilliant color photos and explanatory step by step captions detail the installation of the most popular functional and beneficial upgrades for enthusiasts of varying skill levels. Just a few of the projects included are maximizing performance of electric fans, installing electronic gauges, upgrading charging systems, and installing a complete aftermarket wiring harness, which is no small task. Each facet is covered in amazing detail. Veteran author Tony Candela, who wrote CarTech's previous best selling title Automotive Wiring and Electrical Systems, moves beyond the theoretical and into real world applications with this exciting and detailed follow up. This Volume 2 is essential for any enthusiast looking to upgrade his or her classic vehicle to modern standards and for putting all the knowledge learned in Automotive Wiring and Electrical Systems into practice.

Torn and Restored Grayson Vale, 2025-04-04 A magician's life is all about illusion, misdirection, sleight of hand, and the art of deception. But what happens when the trick goes wrong and the magician himself becomes the target? Will Raynor has spent his life defying expectations. Orphaned young and underestimated by many, he fought his way to the top of the illusionist world through sheer determination and talent. But when a shocking mishap at one of his shows spirals into something far darker, Will finds himself entangled in a reality far more dangerous than any trick he's ever performed. There are people after him, people who know secrets about him that even he doesn't understand. They speak of real magic, of hidden truths and deadly consequences. As betrayals surface and illusions shatter, Will must decide who he can trust. What is real? And most importantly, how does he escape a game where he's the one being played? Because this time, the greatest trick of all might be surviving.
