Soilborne Microbial Plant Pathogens and Disease Management, Volume One P. Narayanasamy,2019-10-08 Soilborne microbial plant pathogens including oomycetes fungi bacteria and viruses cause several economically important destructive diseases and the symptoms of infection can be recognized only after the pathogen has invaded many tissues primarily vascular tissues of susceptible plants This condition places formidable challenges in investigating different aspects of host microbial pathogen interactions Early detection of infection and precise identification differentiation and quantification of the microbial plant pathogens in plants soil and water sources are essential requirements for development of effective tactics to reduce the incidence and spread of the diseases caused by them As the microbial plant pathogens differ in their virulence and sensitivity to the environment and chemicals applied it is imperative to assess the extent of variability in the concerned pathogens This first volume of a two volume set introduces disease causing microorganisms including oomycetes fungi

bacteria and viruses found in soils It focuses on the biology detection and identification of soilborne bacterial fungal and viral plant pathogens This volume discusses various techniques based on biological immunological and genetic properties of the pathogens indicating their advantages and limitations for selecting the appropriate technique to fulfill the requirements Features Presents techniques useful for detection identification quantification of microbial plant pathogens in plants soil and irrigation water from waterbodies Highlights subversive activities of viruses resulting in the breakdown of host defense systems Discusses RNA silencing in infected plants by viruses and posttranscriptional gene silencing PTGS functioning as an endogenous mechanism in plants against virus infection Presents information on methods of assessment of genetic variability and sensitivity of microbial plant pathogens to chemicals and adverse environmental conditions
