**50 Fantastic Ideas for Exploring Shape and Pattern** Alison Hutchison, 2019-10-17 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. 50 Fantastic Ideas for Exploring Shape and Pattern features activities and games filled with rich contexts for learning and discussion as well as fun opportunities for consolidation and problem solving. Alison Hutchison draws on her wealth of experience to present ideas in line with the Early Learning Goals for investigating shape and pattern in the world around us. She focuses on helping young children to make connections and develop language knowledge and understanding of shape and pattern. Whether children build with fabric blocks to create patterns or explore symmetry while playing with natural materials, the easy to prepare activities in this book facilitate engaging learning opportunities for children's ideas and interests to be explored. [Primary Mathematics Across the Curriculum](#) Alice Hansen, Diane Vaukins, 2012-05-23 This book supports trainee teachers working towards primary QTS in teaching primary mathematics across all areas of the curriculum. This Second Edition is linked to the 2012 Teachers' Standards. Focused on teaching a more integrated and inclusive curriculum, the text draws out meaningful cross-curricular links and embraces the latest thinking and current good practice in mathematics teaching. It begins with a section on teaching mathematics covering all strands of the curriculum and goes on to offer guidance on the use and application of mathematics more generally across subjects. A chapter on using mathematics to enhance learning highlights the importance of being able to use mathematics effectively in other aspects of the teacher's role. Interactive activities and case studies link theory to practice and encourage the reader to rethink how mathematics is taught in primary schools. About the Transforming Primary QTS series: This series reflects the new creative way schools are beginning to teach, taking a fresh approach to supporting trainees as they work towards primary QTS. Titles provide fully up to date resources focused on teaching a more integrated and inclusive curriculum and texts draw out meaningful and explicit cross-curricular links.

**The Little Book of Shape and Space** Carole Skinner, Judith Dancer, 2015-06-04 This Little Book builds on children's natural enthusiasm and curiosity about shape and space. The hands-on, easy-to-follow experiences cover both 2D and 3D shapes and will inspire children to explore the spaces all around them in both indoor and outdoor play and as they become familiar with the shapes and patterns in their every day environment. [Annotated Leading Trademark Cases in Major Asian Jurisdictions](#) Kung-Chung Liu, 2019-10-08 There has been little or no study on trademark laws in Asia on a cross-jurisdictional level. This book aims at filling the existing gap and provides a comprehensive overview of trademark laws of eight major Asian jurisdictions and their most updated trademark case law. The book analyses six of the principal issues that best reflect Asian features in trademark law and trademark development. The cases in the book are principally the most authoritative decisions.

usually the first to deal with certain new emerging issues or the first to apply particular statutory provisions in the respective jurisdiction Also included are a small number of direction changing outlying or even controversial decisions Each case report is divided into six sections summary legal context facts reasoning of the court legal analysis and commercial or industrial significance Readers will find this book useful in both its overview of the legal context and how those cases are to be interpreted legally and commercially
