**Immigrant Children and Families** Alan Dettlaff, Rowena Fong, 2014-06-11 Children in immigrant families represent nearly one fourth of all children living in the United States. As this population of children has increased, so has their representation among children involved in child welfare and related systems. Once immigrant families come to the attention of these systems, they often have multiple and complex needs that must be addressed to ensure children's safety and well-being. Culturally competent practice with Latino, Asian, and African immigrants requires that professionals understand the impact of immigration and acculturation on immigrant families, to conduct adequate assessments and provide interventions that respond appropriately to their needs. Professionals also need to be familiar with federal and state policies that affect immigrant families and how those policies may affect service delivery. At the system level, child welfare agencies need to educate and train a culturally competent workforce that responds appropriately to children and families from diverse cultures. This book addresses these critical issues and provides recommendations for the development of culturally competent assessment, intervention, and prevention activities in child welfare agencies. This information can be used as a resource by child welfare administrators, practitioners, and students to improve the child welfare system's response to immigrant children and families and promote culturally competent practice. This book was published as a special issue of the *Journal of Public Child Welfare*.

**The American People** Reynolds Farley, John Haaga, 2005-09-08 For more than 200 years, America has turned to the decennial census to answer questions about itself. More than a mere head count, the census is the authoritative source of information on where people live, the types of families they establish, how they identify themselves, the jobs they hold, and much more. The latest census, taken at the cusp of the new millennium, gathered more information than ever before about Americans and their lifestyles. *The American People*, edited by respected demographers Reynolds Farley and John Haaga, provides a snapshot of those findings that is at once analytically rich and accessible to readers at all levels. *The American People* addresses important questions about national life that census data are uniquely able to answer. Mary Elizabeth Hughes and Angela O'Rand compare the educational attainment, economic achievement, and family arrangements of the baby boom cohort with those of preceding generations. David Cotter, Joan Hermsen, and Reeve Vanneman find that, unlike progress made in previous decades, the 1990s were a time of stability and possibly even retrenchment with regard to gender equality. Sonya Tafoya, Hans Johnson, and Laura Hill examine a new development for the census in 2000: the decision to allow people to identify themselves by more than one race. They discuss how people form multiracial identities and dissect the racial and ethnic composition of the roughly seven million Americans who chose more than one racial classification. Former Census Bureau director Kenneth Prewitt discusses the importance of the census to democratic fairness and government efficiency and notes how the high stakes accompanying the census count, especially the allocation of Congressional seats and federal funds, have made the census a lightning rod for criticism from politicians. The census has

come a long way since 1790 when U S Marshals set out on horseback to count the population Today it holds a wealth of information about who we are where we live what we do and how much we have changed The American People provides a rich detailed examination of the trends that shape our lives and paints a comprehensive portrait of the country we live in today A Volume in the Russell Sage Foundation Census Series *Readers' Guide to Periodical Literature* ,1913 **1980 Census of Population** ,1982 **1980 Census of Population : Volume 1, Characteristics of the Population : Part 1. Internal Revenue Service,2014 The Poor and the Plutocrats Francis Teal,2021 The Poor and the Plutocrats is an examination of financial inequality From Apple the first trillion dollar company at one end of the spectrum to those living in

dire poverty on the other Francis Teal explains how a world has emerged where both of these extremes co exist      *Family Activism* Amalia Pallares, 2014-11-30 During the past ten years legal and political changes in the United States have dramatically altered the legalization process for millions of undocumented immigrants and their families Faced with fewer legalization options immigrants without legal status and their supporters have organized around the concept of the family as a political subject a political subject with its rights violated by immigration laws Drawing upon the idea of the impossible activism of undocumented immigrants Amalia Pallares argues that those without legal status defy this impossible context by relying on the politicization of the family to challenge justice within contemporary immigration law The culmination of a seven year long ethnography of undocumented immigrants and their families in Chicago as well as national immigrant politics *Family Activism* examines the three ways in which the family has become politically significant as a political subject as a frame for immigrant rights activism and as a symbol of racial subordination and resistance By analyzing grassroots campaigns churches and interfaith coalitions immigrant rights movements and immigration legislation Pallares challenges the traditional familial idea ultimately reframing the family as a site of political struggle and as a basis for mobilization in immigrant communities
