*Parents*, 2007      **Program Evaluation Theory and Practice, First Edition** Donna M. Mertens, Amy T.

Wilson, 2012-03-01 This engaging text takes an evenhanded approach to major theoretical paradigms in evaluation and builds a bridge from them to evaluation practice Featuring helpful checklists procedural steps provocative questions that invite readers to explore their own theoretical assumptions and practical exercises the book provides concrete guidance for conducting large and small scale evaluations Numerous sample studies many with reflective commentary from the evaluators reveal the process through which an evaluator incorporates a paradigm into an actual research project The book shows how theory informs methodological choices the specifics of planning implementing and using evaluations It offers balanced coverage of quantitative qualitative and mixed methods approaches Useful pedagogical features include Examples of large and small scale evaluations from multiple disciplines Beginning of chapter reflection questions that set the stage for the material covered Extending your thinking questions and practical activities that help readers apply particular theoretical paradigms in their own evaluation projects Relevant Web links including pathways to more details about sampling data collection and analysis Boxes offering a closer look at key evaluation concepts and additional studies Checklists for readers to determine if they have followed recommended practice      Building a New Generation of Culturally Responsive Evaluators

Through AEA's Graduate Education Diversity Internship Program Prisca M. Collins, Rodney Hopson, 2014-10-06 This issue coincides with the 10th anniversary of the American Evaluation Association's AEA's Graduate Education Diversity Internship GEDI program It emphasize core decisions and developments of the GEDI program and feature key participants who have participated in and contributed to the development and implementation of the program Together the chapters focus on Factors that contributed to the design and organization of the program Critical components and aspects of the program that guide its implementation characterized by the leadership training mentorship and professional socialization and the practical project placements Lessons learned which reveal the opportunities and challenges of expanding pipelines and pathways of diversity and social justice through professional associations This is the 143rd issue in the New Directions for Evaluation series from Jossey Bass It is an official publication of the American Evaluation Association      Researching Health Together

Emily B. Zimmerman, 2020-03-02 Researching Health Together brings together authors who have produced innovative methods or implemented projects focused on different stages of the research process from question development to evaluation and translation Editor Emily B Zimmerman gathers exemplary new methods and projects into one place for the benefit of students designing research projects and proposals those learning stakeholder engaged methods and those involved in implementing and funding stakeholder engaged projects Each chapter addresses how engagement was conceptualized organized and implemented how engagement was evaluated impacts on processes and outcomes of the project and facilitators barriers and lessons learned The book serves as a core textbook for courses in community based

health research at the graduate level      *Youth and Sexuality in the Twentieth-Century United States* John C. Spurlock, 2015-07-16 When did the sexual revolution happen Most Americans would probably say the 1960s In reality young couples were changing the rules of public and private life for decades before By the early years of the twentieth century teenagers were increasingly free of adult supervision and taking control of their sexuality in many ways Dating going steady necking petting and cohabiting all provoked adult hand wringing and advice most of it ignored By the time the media began announcing the arrival of a sexual revolution it had been going on for half a century *Youth and Sexuality in the Twentieth Century United States* tells this story with fascinating revelations from both personal writings and scientific sex research John C Spurlock follows the major changes in the sex lives of American youth across the entire century considering how dramatic revolutions in the culture of sex affected not only heterosexual relationships but also gay and lesbian youth and same sex friendships The dark side of sex is also covered with discussion of the painful realities of sexual violence and coercion in the lives of many young people Full of details from first person accounts this lively and accessible history is essential for anyone interested in American youth and sexuality      *Participatory Evaluation Up Close* J. Bradley Cousins, Jill Anne Chouinard, 2012-07-01 Empiricism provides the backbone of knowledge creation within social science disciplines e g psychology sociology and applied domains of study e g education administration alike Yet relative to such domains of inquiry comparatively little empirical research on evaluation has occurred and the research knowledge base been infrequently synthesized and integrated to influence theory and practice The proposed book aims to fill this void with regard to participatory evaluation a set of collaborative approaches to evaluation that is receiving considerable attention of late including a growing body of empirical studies The authors begin in Part 1 with the delineation of a widely known and familiar conceptual framework for participatory evaluation They then use the framework in Part 2 as a guide to conducting an extensive review of the extant empirical knowledge base in participatory evaluation culminating in a thematic analysis of what we know about the approach In Part 3 the authors focus on methodological considerations of doing research on participatory evaluation through a critique of existing studies and an explication of design choices drawn from their own research program The book concludes in Part 4 with implications for moving the field forward in terms of important research questions methodological direction and evaluation practice This book will be of central interest to evaluation theorists and to those who choose to conduct research on evaluation appeal will be conceptual and methodological It will provide excellent supplementary reading for graduate students many of whom seek to develop empirical studies on evaluation as part of their graduate programs Rife with examples of participatory evaluation in practice and practical implications the book will also benefit evaluation practitioners with an interest in evaluation capacity building and participatory and collaborative approaches to practice      *Collaborative Approaches to Evaluation* J. Bradley Cousins, 2019-06-25 Editor J Bradley Cousins and colleagues meet the needs of evaluators seeking to implement collaborative and participatory approaches to evaluation

in Collaborative Approaches to Evaluation Principles in Use Using a multi phase empirical process to develop and validate a set of principles to guide collaborative approaches to evaluation the book outlines the principles that the team developed and then provides case studies of how these principles have been applied in practice The case studies draw on programs globally in education health and community development The book is an invaluable supplementary text for program evaluation courses where students projects are focused on more collaborative and participatory approaches and it is an essential resource for practicing evaluators and those who commission program evaluations **Resources in Education** ,1999-10
