Sustainable Learning Lorraine Graham, Jeanette Berman, Anne Bellert, 2015-02-12 Sustainable Learning Inclusive Practices for 21st Century Classrooms provides readers with the knowledge and skills to be confident and effective inclusive teachers. The authors show that these skills are essential to quality teaching that is evidence based, purposeful, relevant, and responsive to students' needs. The book employs three overarching frameworks to examine inclusive practices in education: equity learning for all, values learning that matters, and sustainability learning that lasts. Chapter features include: Think and do exercises, Examples, case studies, and vignettes, Tables, figures, and diagrams to help readers visualise core ideas, theories, and themes. It encourages teachers to see all students as developing learners and to consider the complexities and diversity of learning in the 21st century. In doing so, it canvasses topics such as a sustainable approach to inclusion, learning processes, teaching processes, differentiation, assessment to support teaching and learning, and life long learning. *Leading and Managing Indigenous Education in the Postcolonial World* Zane Ma Rhea, 2014-07-11 This book brings together the academic fields of educational leadership, educational administration, strategic change management, and Indigenous education in order to provide a critical, multi-perspective, systems level analysis of the provision of education services to Indigenous people. It draws on a range of theorists across these fields, internationally mobilising social exchange and intelligent, complex, adaptive systems theories to address the key problematic of intergenerational educational failure. Ma Rhea establishes the basis for an Indigenous rights approach to the state provision of education to Indigenous peoples that includes recognition of their distinctive economic, linguistic, and cultural rights within complex, globalized, postcolonial education systems. The book problematizes the central concept of a partnership between Indigenous people and non-Indigenous school leaders, staff, and government policy makers, even as it holds this key concept at its centre. The infantilising of Indigenous communities and Indigenous people can take priority over the education of their children in the modern state; this book offers an argument for a profound rethinking of the leadership and management of Indigenous education. *Leading and Managing Indigenous Education in the Postcolonial World* will be of value to researchers and postgraduate students focusing on Indigenous education, as well as teachers, education administrators, and bureaucrats, sociologists of education, Indigenous education specialists, and those in international and comparative education. **Perspectives on Indigenous Pedagogy in Education: Learning From One Another** Cote-Meek, Sheila, Moeke-Pickering, Taima, 2023-07-24 As Indigenous pedagogy continues to grow in the modern educational landscape, it is critical to fully understand key questions such as: what is Indigenous pedagogy? why is Indigenous pedagogy important? and how do you link Indigenous theory and practice in the classroom? Further study is required to ensure Indigenous pedagogy is utilized appropriately in education. *Perspectives on Indigenous Pedagogy in Education: Learning From One Another* explores the complexities of negotiating and integrating Indigenous pedagogies in education and presents a variety of global perspectives on Indigenous pedagogies in
