Lingard, Christopher Watling, 2021-04-26 Many researchers dread writing They find it laborious even painful to put their scholarly work into words They get bogged down in the study and lose track of the story And they produce uninspiring papers that fail to resonate with readers or reviewers This book offers an antidote to this problem brief accessible lessons that guide researchers to write clear and compelling scientific manuscripts The book is divided into three sections Story Craft and Community The Story section offers advice on getting the balance of study and story just right introducing strategies for tackling each section of a scientific manuscript The Craft section considers the grammatical and rhetorical tools of the trade showing how they can be wielded for maximum impact And the Community section offers suggestions for writing collaboratively supporting other writers and navigating peer review Each section features multiple short and pragmatic lessons peppered with illustrative examples Readers can use the chapters collectively to build holistic writing skills or dip in and out to refine specific elements of the craft Rooted in a coaching philosophy we aim to unlock our readers potential as writers through instruction reflection and example And we hope to inspire researchers to face writing with joy This work is clearly written and easily understandable Its many practical examples tools and exercises make an effective toolbox of support for scholarly writers This will be invaluable to new scholars and help established scholars as well The inclusion of examples specific to the health arena and the clear elegantly simple explanations add strength and relevance to this work Toni Ungaretti Johns Hopkins School of Education Baltimore MD USA This book is the most original perspective I have ever read about the craft of writing As its title suggests it is inspiring Brownie Anderson NBME Philadelphia PA USA

The Universal Islamic Education Methodology Roohi A. Ahmad,2023-08-28 Have we ever wondered why Allah swt uses His name as Allah some places and Rabb in the others Have we ever wondered what the difference between momin and muslim is Can we make an argument to prove their meanings from within the Quran Have we ever wondered why Allah swt uses the word zikar so extensively throughout the Quran or what the meaning of the word zikar is or how the meaning of zikar is different from talu qara and ratil and even why there are talu qara and ratil the three different words for reading the Quran Or have we ever wondered why we are plagued by all kinds of catastrophes Or why is there so much chaos and conflict in the world and how can we solve these problems If we have not wondered about such questions the reason is that we have not read the Qur an in its true sense Today s Muslims have two main objectives for their children success in this world and triumph in the life hereafter Muslim children need natural and social knowledge but to fully enrich their minds they also need to learn about the Quran and Islamic traditions Many Islamic schools in North America are pursuing both of these objectives but educators often feel that merging these two goals is too difficult Having spent years teaching in Islamic schools and conducting a wealth of research Roohi A Ahmad has observed firsthand how complex the enterprise of Islamic education is She has also witnessed the void of learning outcomes teaching goals and most importantly a clear vision and methodology for Islamic education She has sought to remedy that situation in this book It provides a practical methodology designed to help Muslim educators create a state of the art Islamic education system that will lead to fully formed students who can function well in this world and ensure a positive outcome in the world to come
