J. Dunlap, 2015-01-02 This volume includes the full proceedings from the 1990 Academy of Marketing Science AMS Annual Conference held in New Orleans Louisiana The research and presentations

offered in this volume cover many aspects of marketing science including marketing strategy consumer behavior international marketing industrial marketing marketing education among others Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field Volumes deliver cutting edge research and insights complimenting the Academy s flagship journals Journal of the Academy of Marketing Science JAMS and AMS Review Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science *Disability, Avoidance and the Academy* David Bolt, Claire Penketh, 2017-07-14

Disability is a widespread phenomenon indeed a potentially universal one as life expectancies rise Within the academic world it has relevance for all disciplines yet is often dismissed as a niche market or someone else s domain This collection explores how academic avoidance of disability studies and disability theory is indicative of social prejudice and highlights conversely how the academy can and does engage with disability studies This innovative book brings together work in the humanities and the social sciences and draws on the riches of cultural diversity to challenge institutional and disciplinary avoidance Divided into three parts the first looks at how educational institutions and systems implicitly uphold double standards which can result in negative experiences for staff and students who are disabled The second part explores how disability studies informs and improves a number of academic disciplines from social work to performance arts The final part shows how more diverse cultural engagement offers a way forward for the academy demonstrating ways in which we can make more explicit the interdisciplinary significance of disability studies and by extension disability theory activism experience and culture *Disability Avoidance and the Academy Challenging Resistance* will interest students and scholars of disability studies education studies and cultural studies *Dangerous Counterstories in The Corporate Academy* Brad J. Porfilio, Emily A. Daniels, 2013-03-01 Although the social reality is stark for progressive scholars who engage in scholarly activities or are committed to guiding their students to develop a social just praxis in the circles of higher education some scholars have found fissures amid the alienating often hostile academic world to learn grow and create transformative communities Up to this date however their stories have not been captured Therefore the purpose of this volume is to highlight alternative narratives generated by transformative scholars who have maintained their oppositional identity to the structures that oppress the vast majority of citizens By bringing together these narratives we focus on those who have joined with likeminded colleagues to teach engage in activism and conduct emancipatory forms of research learning to negotiate and survive academic and corporate realities in spite of restrictive climates Not only are these stories vital for helping students academics and the wider community understand how commercialized forces are impacting the professional lives of critical

scholars in the academy they have the power to help current and future critical pedagogues define and redefine themselves in a social world which is continually promoting a narrow and intellectually stifling agenda for the role of education and turning the public against the very idea of a critical education McLaren 2006 As stated by Bruner 1986 stories give a map of possible roles and possible worlds in which action thought and self definition are possible or desirable p 2 cited in Collins Cooper 2005 These possibilities for definition and redefinition are what we seek to present explore and understand

Imagining the Academy Susan Edgerton, Gunilla Holm, Toby Daspit, Paul Farber, 2013-01-11 The essays in this book examine various forms of popular culture and the ways in which they represent shape and are constrained by notions about and issues within higher education From an exploration of rap music to an analysis of how the academy presents and markets itself on the World Wide Web the essays focus attention on higher education issues that are bound up in the workings and effects of popular culture *Bulletin - U.S. Coast Guard Academy Alumni Association* United States Coast Guard Academy.
