Saving More Than Seeds Catherine Phillips, 2016-04-01 Saving More Than Seeds advances understandings of seed people relations with particular focus on seed saving The practice of reusing and exchanging seeds provides foundation for food production and allows humans and seed to adapt together in dynamic socionatural conditions But the practice and its practitioners are easily taken for granted even as they are threatened by neoliberalisation Combining original ethnographic research with investigation of an evolving corporate seed order this book reveals seed saving not only as it occurs in fields and gardens but also as it associates with genebanking genetic engineering intellectual property rights and agrifood regulations Drawing on diverse social sciences literatures Phillips illustrates ongoing practices of thinking feeling and acting with seeds raising questions about what seed people relations should accomplish and how different ways of relating might be pursued to change collective futures

Encountering the Self Hermann Koepke, 1989-12 Addresses Essays Discussions and Reports 1920 1924 CW 217a Young people today turn away from older people not because the latter have grown old but because they have remained young that is because they don t understand

how to grow old in the right way Older people today lack this self knowledge Growing old in the right way means allowing the spirit to unfold in our souls as befits an aging body When we do this we show young people not only what time has done to the body but also what eternity reveals through the spirit Young people will find their way to older people who seriously attempt to experience spirit To say that we must act young when we are with young people is just an empty phrase As older people we must understand and demonstrate to young people how to be old in the right way Rudolf Steiner Mar 9 1924

Youth and the Etheric Heart which comes to twenty first century readers in the somewhat deceptive wrapping of a historical document of Rudolf Stiener s addresses to young people during 1920 to 1924 is at least for those concerned with the future of Anthroposophy or with the future of spiritual life in general one of the most extraordinary and prophetic volumes in the collected works This book is intended by its editors to be supplementary to the central turning point of the movement the 1922 Pedagogical Youth Course published as Becoming the Archangel Michael s Companions Together they present Steiner s vision for Anthroposophy as he hoped it would permeate culture through young people able to take it up as a spiritual intellectual and socially transforming path The task which underlies the whole volume and to which we too are called by service to the Archangel Michael is to open to the etheric heart in humanity This becomes clear in Rudolf Steiner s final address to the young people attending a teachers conference in Arnheim on July 20 1924 What is needed is not thinking about what should happen People should feel that the spirit outside of us speaks in the flames of nature The sunrise has changed But also our heart has changed we no longer bear the same heart in our chest Our physical heart has grown harder and our etheric heart more mobile We must find access to our suprasensory hearts This is the way we must understand spiritual science In this respect young people have hearts ideally suited to feeling when something is right It simply requires courage to really think it It is in the light of our suprasensory heart that we should approach this volume and indeed Anthroposophy as a whole Youth and the Etheric Heart is a great companion volume to Becoming the Archangel Michael s Companions CW 217 During the early 1920s following the disaster of World War I the youth of Europe faced many hardships and questions about their destiny in the world The situation today is certainly different but the questions are no less urgent This volume is the first complete English translation from the German of Die Erkenntnis Aufgabe der Jugend GA 217a
