

Actros

ACTROS

General Description - All Actros Cabs

Design and Construction

All Actros cabs are specified in line with operational requirements. Each offering superb driver comfort and safety along with practical features designed to make life on board as pleasant as possible.

Cabs are constructed of steel and precision welded by robots. Critical areas are galvanised and box sections are filled with wax. This gives excellent protection against corrosion and offers high standards of occupant safety. (Complies with ECE R29)

Cabs tilt to 70° to enable service access, either using the manual or electric pump (depending upon specification).

Comfort

Driver comfort was one of the primary objectives when designing the Actros cab. All seats and beds are designed to offer unrivalled support and comfort.

The lower bed features an internally sprung mattress and gives a generous 710mm x 1950mm sleeping area. (Where fitted) The upper bed features unique adjustable spring slats and gives a massive 800mm x 2020mm.

The driver's seat is air suspended with a head restraint and armrests. It is extensively adjustable and provides ideal support and positioning for the driving controls.

The passenger's seat features a lifting squab allowing either cross cab access or additional space for storage or movement.

All of the materials used in the Actros cab have been specially selected to deliver a high-quality look and feel throughout the vehicle's life.

Interior Lighting

Interior lighting is supplied by fully dimming lamps positioned around the cab. These can be controlled by the door opening and will automatically turn off once moving. Green night-lights are also fitted to give low level lighting during the night.

Storage

The storage areas in the Actros are both practical and accessible. For smaller items there are deep pockets on each door, recesses on the fascia and above the windscreen, dual drinks holders for driver and passenger are also integrated into the fascia.

For larger items, sleeper cabs feature two pull out drawers under the lower bed including a removable waste bin. The top drawer can be optionally fitted with a fridge.

Day cabs have a multi-compartment storage box on the engine tunnel.

Sleeper cabs feature two large secure compartments for storage accessible from inside and outside the cab. MegaSpace cabs also have smaller external storage compartments.

Access

Getting in and out could not be easier. Doors open to 90° and two grab handles aid entry. The non-slip entrance steps are illuminated and arranged in a staircase for safety.

Instruments

A quick glance at the anti-glare driver information screen gives all the information necessary for safe driving. More detailed information is obtained by scrolling through the information pages using the function buttons on the steering wheel.

The two-man digital tachograph is situated above the screen.

The rev counter incorporates a moving green band to encourage an economic driving style.

Fuel gauge with integrated AdBlue indicator.

Protection & Finish

Actros cabs are painted in Arctic White as standard and can be ordered in a range of solid or metallic colours.

Chassis and components are finished in Nova Grey whilst the wheels are painted silver.

Service Access

Lifting the front grille gives access to top up the following fluids:

- Clutch
- Screen wash
- Coolant
- Engine oil

Other Refinements

Two electrically adjustable large rear view mirrors with switched heating combined with long-range and kerb mirrors on the nearside ensure all round visibility. Also equipped with front view mirror.

Two full width sun visors at the front and fold down visor on driver's side, external tinted sun visor and all round tinted glass.

Programmable night heater integrated into main heating vents.

Coat hooks.

Three point seat belts.

12 volt socket on dashboard.

Electric windows for driver and passenger - operated from door panel.
