Writing the Rapture Crawford Gribben,2009-02-02 For the past twenty years evangelical prophecy novels have been a powerful presence on American bestseller lists Emerging from a growing conservative culture industry the genre dramatizes events that many believers expect to occur at the end of the age the rapture of the saved the rise of the Antichrist and the fearful tribulation faced by those who are left behind Seeking the forces that drove the unexpected success of the Left Behind novels Crawford Gribben traces the gradual development of the prophecy fiction genre from its eclectic roots among early twentieth century fundamentalists The first rapture novels came onto the scene at the high water mark of Protestant America

From there the genre would both witness the defeat of conservative Protestantism and participate in its eventual reconstruction and return providing for the renaissance of the evangelical imagination that would culminate in the Left Behind novels Yet as Gribben shows the rapture genre while vividly expressing some prototypically American themes also serves to greatly complicate the idea of American modernity assaulting some of its most cherished tenets Gribben concludes with a look at post Left Behind rapture fiction noting some works that were written specifically to counter the claims of the best selling series Along the way he gives attention not just to literary fictions but to rapture films and apocalyptic themes in Christian music Writing the Rapture is an indispensable guide to this flourishing yet little understood body of literature

Cloning Stephen D. Fairbanks, 2004 The terms recombinant DNA technology DNA cloning molecular cloning or gene cloning all refer to the same process the transfer of a DNA fragment of interest from one organism to a self replicating genetic element such as a bacterial plasmid The DNA of interest can then be propagated in a foreign host cell This technology has been around since the 1970s and it has become a common practice in molecular biology labs today Reproductive cloning is a technology used to generate an animal that has the same nuclear DNA as another currently or previously existing animal Dolly was created by reproductive cloning technology In a process called somatic cell nuclear transfer SCNT scientists transfer genetic material from the nucleus of a donor adult cell to an egg whose nucleus and thus its genetic material has been removed The reconstructed egg containing the DNA from a donor cell must be treated with chemicals or electric current in order to stimulate cell division Once the cloned embryo reaches a suitable stage it is transferred to the uterus of a female host where it continues to develop until birth Therapeutic cloning also called embryo cloning is the production of human embryos for use in research The goal of this process is not to create cloned human beings but rather to harvest stem cells that can be used to study human development and to treat disease Stem cells are important to biomedical researchers because they can be used to generate virtually any type of specialised cell in the human body This new book presents an up to date Chronology of Cloning along with current and selected abstracts dealing with cloning as well as a guide to books on the topic Access to the abstract and books sections is provided by title subject and author indexes

Encyclopedia of Contemporary Christian Fiction Nancy M. Tischler, 2009-09-10 A biographical encyclopedia of American and British Christian themed writers from World War II to the present covering acclaimed literary works and popular evangelical fiction Encyclopedia of Contemporary Christian Fiction From C S Lewis to Left Behind spans the entire breadth of Christian themed British and American writing from World War II to the present well known and less familiar authors acclaimed literary novels and popular writing in a variety of genres mysteries thrillers romances works that explore matters of faith works that challenge orthodoxy and church practices and works wholly written by and for devout evangelicals Encyclopedia of Contemporary Christian Fiction offers 90 alphabetically organized entries covering the field's most important writers Each entry includes a brief biography religious and educational background a survey of major works and

themes and a summary of critical response as well as a bibliography of major works and criticism By examining evocative sometimes overlooked Christian elements in modern fiction and by exploring the depth and scope of popular evangelical fiction Encyclopedia of Contemporary Christian Fiction offers the richest most complete portrait of the role of faith in modern English writing ever published [Plotting Apocalypse](#) Jennie Chapman,2013-09-12 It is the not too distant future and the rapture has occurred Every born again Christian on the planet has without prior warning been snatched from the earth to meet Christ in the heavens while all those without the requisite faith have been left behind to suffer the wrath of the Antichrist as the earth enters into its final days This is the premise that animates the enormously popular cultural phenomenon that is the Left Behind series of prophecy novels co written by Tim LaHaye and Jerry Jenkins and published between 1995 and 2007 But these books are more than fiction it is the sincere belief of many evangelicals that these events actually will occur soon Plotting Apocalypse delves into the world of rapture prophecy and tribulation in order to account for the extraordinary cultural salience of these books and the impact of the world they project Through penetrating readings of the novels Chapman shows how the series offers a new model of evangelical agency for its readership The novels teach that although believers are incapable of changing the course of a future that has been preordained by God they can become empowered by learning to read the prophetic books of the Bible and the signs of the times correctly Reading and interpretation become key indices of agency in the world that Left Behind limns Plotting Apocalypse reveals the significant cultural work that Left Behind performs in developing a counter narrative to the passivity and fatalism that can characterize evangelical prophecy belief Chapman s arguments may bear profound implications for the future of American evangelicalism and its interactions with culture society and politics *Contemporary Authors* Julie Keppen,2004-10 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers **Birth of an Age** James BeauSeigneur,1997 Cloned from the ancient cells of Jesus Christ Christopher Goodman is forced to sit back and watch the destruction of Earth in order to fulfill his destiny **The Church and Literature** Ecclesiastical History Society. heaven for eternal bliss If you don't your soul will be tormented forever in the fires of hell The Bible does not teach that You will learn why in chapter eight The author separates Bible fact from church fiction and shows that we should repent and turn to God because He loves us not out of fear of eternal torment in hell Using an abundance of scripture references as well as personal speculation the author paints a picture that makes sense It may increase your faith in God and bring you peace in these troubling times If you are seeking answers about the purpose for your life this book may be what you need **Library Journal** ,2003 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Bowker's Guide to Characters in Fiction 2007** ,2008-02 *Books Out Loud* ,2007 **In His Image** James BeauSeigneur,2003 What child is this Amid plagues and nuclear war the United Nations gains control of the new world order Israel is rebuilding the Temple of Solomon And journalist Decker Hawthorne is raising an orphaned ward Christopher Goodman But Christopher is no ordinary boy he has miraculous powers visions and memories of biblical times because he was cloned from the cells of Jesus Christ from the Shroud of Turin Time ,2004 The Publishers Weekly ,2003
