

Let me congratulate you on your P.M. series on modern art, which  
 excellently manages to be equally informative & amusing. Most  
 advocates of modern art have an unpleasant & high-minded  
 attitude toward unlabeled laymen like myself that they cause only  
 irritation, but your missionary zeal is so tempered with good  
 nature & humanness that it is a delight.

Lippard, 1966      'Race Is Everything' David Bindman, 2023-06-26 A timely and revealing look at the intertwined histories of science art and racism *Race Is Everything* explores the spurious but influential ideas of so-called racial science in the nineteenth and the first half of the twentieth centuries and how art was affected by it David Bindman looks at race in general but with particular concentration on attitudes toward and representations of people of African and Jewish descent He argues that behind all racial ideas of the period lies the belief that outward appearance and especially skull shape as studied in the pseudoscience of phrenology can be correlated with inner character and intelligence and that these could be used to create a seemingly scientific hierarchy of races The book considers many aspects of these beliefs including the skull as a racial marker ancient Egypt as a precedent for Southern slavery Darwin race and aesthetics the purported Mediterranean race the visual aspects of eugenics and the racial politics of Emil Nolde      **Museum Legs** Amy
