Addis Zemen March 23 2009 News Paper:

An African People's Quest for Freedom and Justice Alemseged Tesfai, 2025-03-06 Like its African neighbours Eritrea attained colonial statehood under a European power in this case Italy Yet during decolonisation its people were singularly excluded from the right to self determination for external reasons superpower rivalry over the country's strategic position on the Red Sea a mistaken notion of irreconcilable sectarian differences within Eritrea's population invoked in order to brand it a society unfit for statehood and Ethiopia's imperial claim based on mythical historical connections The Ethiopian call for Eritrea's return supported by the UK and the US sealed its fate at the international level First in the early 1950s the UN General Assembly federated Eritrea as an autonomous unit under Ethiopian sovereignty a decade later Addis Ababa annexed it as a province in neither case was the population consulted sparking a liberation war This vital book traces the genesis of the Eritrean independence struggle through hitherto unexplored local sources both written and oral analysed against the rather scanty existing literature on this period Alemseged Tesfai refocuses the narrative on the actions reactions and expectations of a relatively small nation in both size and population as it set out to right an international wrong imposed by the Great Powers of the day

The Quest for Press Freedom Meseret Chekol Reta, 2013-05-16 The Quest for Press Freedom is a book about press development and freedom in Ethiopia with a focus on the state media It examines the building of a modern media institution over the last one hundred years of its existence and the restrictions against its freedoms The significance of this work lies in its originality and that it addresses these two issues across three distinct epochs the monarchy era the Marxist military regime and the current ethnic federalist regime The book examines the political and social situations in each of these periods and analyzes the effects they had on the media The book also provides examples of how journalists working for the government run media have a strong desire to exercise their constitutional right to press freedom In the final chapter Reta offers recommendations for a more viable media system in Ethiopia

Institutional Reform and Diaspora Entrepreneurs Jennifer M. Brinkerhoff, 2016-08-08 Externally promoted institutional reform even when nominally accepted by developing country governments often fails to deliver lasting change Diasporans immigrants who still feel a connection to their country of origin may offer an In Between Advantage for institutional reform which links problem understanding with potential solutions and encompasses vision impact operational and psycho social advantages Individuals with entrepreneurial characteristics can catalyzing institutional reform Diasporans may have particular advantages for entrepreneurship as they live both psychologically and materially between the place of origin they left and the new destination they have embraced Their entrepreneurial characteristics may be accidental cultivated through the migration and diaspora experience or innate to individuals personalities This book articulates the diaspora institutional entrepreneur In Between Advantage proposes a model for understanding the characteristics and motivational influences of entrepreneurs generally and how they apply to diaspora entrepreneurs in particular and presents a staged model of institutional

entrepreneur actions I test these frameworks through case narratives of social institutional reform in Egypt economic institutional reform in Ethiopia and political institutional reform in Chad In addition to identifying policy implications this book makes important theoretical contributions in three areas First it builds on existing and emerging critiques of international development assistance that articulate prescriptions related to alternative theories of change Second it fills an important gap in the literature by focusing squarely on the role of agency in institutional reform processes while still accounting for organizational systems and socio political contexts In doing so it integrates a more expansive view of entrepreneurship into extant understandings of institutional entrepreneurship and it sheds light on what happens in the frequently invoked black box of agency Third it demonstrates the fallacy of many theoretical frameworks that seek to order institutional change processes into neatly definable linear stages
