Imperium Frederic Lordon, 2022-01-25 An investigation into what makes the consistency of political groupings What should we do with the ideals of internationalism the withering away of state and horizontality Probably start by thinking seriously about them That is to say about their conditions of possibility or impossibility rather than sticking to the wishful thinking which believes that for them to happen it is enough to want them Humanity exists neither as a dust cloud of separate individuals nor as a unified world political community It exists fragmented into distinct finite wholes the forms of

which have varied considerably throughout history the nation state being only one among many and certainly not the last What are the forces that produce this fragmentation engender such groupings and prevent them from being perfectly horizontal but also lead them to disappear merge or change form It is questions such as these that this book explores drawing on Spinoza's political philosophy and especially his two central concepts of *multitudo* and *imperium*

De la participation à la co-construction des patrimoines urbains Elizabeth Auclair, Marie-Laure Poulot, Anne Hertzog, 2017-12-18T00:00:00+01:00 La fabrique patrimoniale urbaine est aujourd'hui de plus en plus conçue et pratiquée comme une co-construction qui réunit des acteurs porteurs de savoirs différents mais complémentaires Les processus de sélection conservation et valorisation d'objets désignent comme patrimoines intègrent des formes d'expertises variées et participatives qu'elles soient initiées par des professionnels des chercheurs des institutions ou par d'autres acteurs issus des sociétés urbaines habitants associations minoritaires les processus de patrimonialisation intègrent désormais du paradigme participatif dans l'action publique C'est particulièrement remarquable lorsqu'il s'agit de porter attention aux démarches de patrimonialisation de catégories invisibles sans voix ou peu légitimes dans la ville Les articles de chercheurs et les témoignages d'acteurs ici réunis enquêtent sur ce qui fait patrimoine pour certains groupes sociaux minoritaires ou marginalisés dans la ville ou pour les habitants d'espaces peu reconnus pour leur qualité patrimoniale banlieues friches prisons bidonvilles bassin minier quartiers d'habitat populaire Ces démarches qui tendent à construire du commun par le patrimoine reposent souvent sur la mise en place de dispositifs particuliers

de collaborations originales et de médiations innovantes elles permettent de réfléchir aux enjeux territoriaux sociaux et politiques des processus de patrimonialisation urbains Ces formes de coconstruction s'apparentent à un dépassement de la conflictualité patrimoniale Leur étude conduit à se demander si la patrimonialisation peut être un moyen de valoriser des territoires en marge de créer du lien social d'intégrer des minorités socialement ou spatialement exclues de bousculer des hiérarchies établies voire de réinventer du commun au-delà des fractures et des inégalités

d gradation de la biosphère sont insévitables. L'objectif de cet ouvrage est d'insuffler un vent d'espoir en proposant des solutions concrètes basées sur les valeurs cardinales du management responsable. Ce type de management intègre dans ses activités et ses outils la triple contrainte sociale, économique et environnementale du développement durable. Chaque chapitre s'articule autour d'une valeur qui est déployée sur les plans individuel, organisationnel et social. Le management responsable n'est pas une méthode que l'on peut appliquer en suivant une recette ; il implique de repenser nos habitudes et nos préjugés et de réfléchir aux valeurs qui guident nos actions. Il interpelle les personnes qui sont prêtes à participer à la création de milieux de travail plus harmonieux et de communautés humaines plus sereines sur une planète en santé. S'il est permis de croire que le management responsable représente déjà une aspiration idéale pour bon nombre de personnes, cet ouvrage vise leur donner des moyens d'incarner cet idéal au quotidien, travers les pratiques de gestion responsables qui y sont présentes.

La peur du peuple Francis Dupuis-Déri, 2021-10-07T00:00:00-04:00

Zapatistes, Indignés, Occupy, Printemps rageux et Gilets jaunes. Alors que certains rigent ces mouvements populaires en idéal de la démocratie directe, d'autres n'y voient que des mobilisations certes sympathiques mais insignifiantes quand ils ne tentent pas de les discréditer en les associant à la violence. S'appuyant sur une grande diversité d'expériences des pratiques démocratiques d'hier et d'aujourd'hui, y compris hors de l'Occident, Francis Dupuis-Déri propose une réflexion inspirée et critique. Ce récit de la lutte historique entre agoraphobie et agoraphilie, entre la haine et l'amour de la démocratie directe, offre une analyse approfondie des arguments et des manœuvres des deux camps et du rapport dialectique entre le peuple assemblé, l'agora pour libérer le demos et celui qui descend dans la rue, la place. D'abord paru en 2016, cet ouvrage, la fois original et provocateur, est d'autant plus stimulant qu'il se situe à la croisée des chemins de la philosophie politique, de l'anthropologie et de la sociologie.
