Fame Junkies Jake Halpern, 2021-05-12 The author of *Welcome to the New World* and *Bad Paper* discusses America's obsession with celebrity in this 2007 investigation. Why do more people watch *American Idol* than the nightly news? What is it about Paris Hilton's dating life that lures us so? Why do teenage girls, when given the option of pressing a magic button and becoming either stronger, smarter, famous, or more beautiful, predominantly opt for fame? In this entertaining and enlightening book, Jake Halpern explores the fascinating and often dark implications of America's obsession with fame. He travels to a Hollywood home for aspiring child actors and enrolls in a program that trains celebrity assistants. He visits the offices of *Us Weekly* and a laboratory where monkeys give up food to stare at pictures of dominant members of their group. The book culminates in Halpern's encounter with Rod Stewart's biggest fan, a woman from Pittsburgh who nominated the singer for Hollywood's Walk of Fame. *Fame Junkies* reveals how psychology, technology, and even evolution conspire to make the world of red carpets and velvet ropes so enthralling to all of us on the outside looking in. politics that encourages women's private consumer lifestyles and middle class aspirations while it discourages public life and political activism. The author discusses the Anita Hill Clarence Thomas hearings of 1991, the 1991-92 Year of the Woman in politics, the 1996 presidential campaign's use of soccer moms, and Hillary Rodham Clinton's campaign for Senate in 2000. Vavrus assesses the logic that emerges in these narratives, recurrent themes about gender, and explores their significance for women and for feminism, ultimately arguing that feminism has been supplanted by postfeminism in news accounts of political women.
