**The Harvard Conference on the Internet & Society** O'Reilly & Associates, 1997 Today's hottest Internet technologies they also explore the important issues regarding precisely what is at stake for a society with greater and growing ties to cyberspace Topics in this timely collection include privacy and security property rights censorship telecommunications regulation and the global impact of emerging Internet technologies

**The State Boys Rebellion** Michael D'Antonio, 2007-11-01 A Pulitzer Prize winning journalist tells the amazing story of how a group of imprisoned boys won their freedom found justice and survived one of the darkest and least known episodes of American history In the early twentieth century United States health officials used IQ tests to single out feeble-minded children and force them into institutions where they were denied education sterilized drugged and abused Under programs that ran into the 1970s more than 250 000 children were separated from their families although many of them were merely unwanted orphans truants or delinquents The State Boys Rebellion conveys the shocking truth about America's eugenic era through the experiences of a group of boys held at the Fernald State School in Massachusetts starting in the late 1940s In the tradition of Erin Brockovich it recounts the boys dramatic struggle to demand their rights and secure their freedom It also covers their horrifying discovery many years later that they had been fed radioactive oatmeal in Cold War experiments and the subsequent legal battle that ultimately won them a multimillion dollar settlement Meticulously researched through school archives previously sealed papers and interviews with the surviving State Boys this deft exposé is a powerful reminder of the terrifying consequences of unchecked power as well as an inspiring testament to the strength of the human spirit

**Release Print**, 2000 **Affective Movements, Methods and Pedagogies** Anne Harris, Stacy Holman

Jones, 2020-12-09 *Affective Movements Methods and Pedagogies* invites readers to think with affect about performance pedagogies and their inherent activist embodied and collective natures It works across multiple spheres to help readers understand how to deploy affective approaches rather than to simply think with affect theory about traditional methods The book is structured and curated across three main thematic sections affective movements methods and pedagogies each of which treats the core explorations of affect and performance through a different perspective It is concerned with the ways performance and theatrical methods work with and through a theoretic of affect The sixteen chapters include work that models theoretical practices in writing and demonstrates how theorising affect and its methods is itself a performative practice The contributors offer rich examples from diverse geopolitical as well as disciplinary contexts innovative methods

and finally intersectional theoretics This collection will be of interest to higher education students exploring methodologies and academic researchers and teachers in the fields of performance studies communication critical studies sociology and the arts
