Abma Past Papers June Exams:

Eisenhower's Sputnik Moment Yanek Mieczkowski, 2013-02-15 In a critical Cold War moment Dwight D Eisenhower's presidency suddenly changed when the Soviet Union launched Sputnik the world's first satellite What Ike called a small ball became a source of Russian pride and propaganda and it wounded him politically as critics charged that he responded sluggishly to the challenge of space exploration Yet Eisenhower refused to panic after Sputnik and he did more than just stay calm He helped to guide the United States into the Space Age even though Americans have given greater credit to John F Kennedy for that achievement In *Eisenhower's Sputnik Moment* Yanek Mieczkowski examines the early history of America's space program reassessing Eisenhower's leadership He details how Eisenhower approved breakthrough satellites supported a new civilian space agency signed a landmark science education law and fostered improved relations with scientists These feats made Eisenhower's post Sputnik years not the flop that critics alleged but a time of remarkable progress even as he endured the setbacks of recession medical illness and a humiliating first U S attempt to launch a satellite Eisenhower's principled stands enabled him to resist intense pressure to boost federal spending and he instead pursued his priorities a balanced budget prosperous economy and sturdy national defense Yet Sputnik also altered the world's power dynamics sweeping Eisenhower in directions that were new even alien to him and he misjudged the importance of space in the Cold War's prestige race By contrast Kennedy capitalized on the issue in the 1960 election and after taking office he urged a manned mission to the moon leaving Eisenhower to grumble over the young president's aggressive approach Offering a fast paced account of this Cold War episode Mieczkowski demonstrates that Eisenhower built an impressive record in space and on earth all the while offering warnings about America's stature and strengths that still hold true today *Proceedings*, 1969 **Astronautics**, 1959-03 *Organization and Management of Missile Programs* United States. ASME Technical Papers, 1977 **Humane Interfaces** J.P. Marsh, B. Gorayska, J.L. Mey, 1999-04-07 Ever since the first successful International Cognitive Technology CT Conference in Hong Kong in August 1995 a growing concern about the dehumanising potential of machines and the machining potential of the human mind has pervaded the organisers thinking When setting up the agenda for the Second International CT Conference in Aizu Japan in August of 1997 they were aware that a number of new approaches had seen the light but that the need to integrate them within a human framework had become more urgent than ever due to the accelerating pace of technological and commercialised developments in the computer related fields of industry and research What the present book does is re-emphasize the importance of the human factor not as something that we should also take into account when doing technology but as the primary driving force and

supreme aim of our technological endeavours Machining the human should not happen but humanising the machine should La Humacha should replace the Hemachine in our thinking about these matters
