

My Summer Vacation

3 pages | 623 words

During summer vacation, my family and I were walking along the beach I hear a little girl shout, "Mommy look what I found, it's a crab!" Everybody's first thoughts were how cute of this little girl, but when we saw the crab itself everyone looked in horror and in disgust of humanity. The crab was wrapped around a six-pack beverage ring, the poor thing was stuck there with no way out. "Every day approximately 8 million pieces of plastic pollution find their way into our oceans." If you were to tell someone this a century ago they would laugh, the sad part is this is the reality we live in, this is the world we live in. Plastics are used because they are easy and cheap materials to make, they also help products to last a long time. Unfortunately, these very useful qualities make plastic a huge pollution problem. Because the plastic is cheap it gets discarded easily and its great amount in the environment can do great harm. Urbanization has added to the plastic pollution in concentrated form in cities. Plastic thrown on land can enter the drainage lines and choke them resulting into floods in local areas in cities as was experienced in Mumbai, India in 1998. It was claimed in one of the programs on TV that eating plastic bags results in death of 100 cattle per day in U.P. in India. More than 90% of the articles found on the sea beaches contained plastic. The plastic trash found on beaches near urban areas tends to originate from use on land, such as packaging material used to wrap around other goods. On remote rural beaches the trash tends to have come from ships, such as fishing equipment used in the fishing industry. This plastic can affect marine wildlife in two terrible ways these creatures could become entangled with the waste, or they can end up eating it thinking its food and die. Of these sea creatures, turtles are particularly affected by plastic pollution, and all seven of the world's turtle species are already either endangered or threatened for a number of reasons. Turtles get entangled in fishing nets, and many sea turtles have been found dead with plastic bags in their stomachs. Turtles mistake floating transparent plastic bags for jellyfish and eat them. In one dead turtles found off Hawaii in the Pacific more than 1,000 pieces of plastic were found in its stomach. A recent US report concluded that more than 100,000 marine mammals die every year in the world's oceans by eating or becoming entangled in plastic trash, and the position is worsening world-wide, 75 marine bird species are known to eat plastic articles. This includes 36 species found off South Africa. A recent study of blue petrel chicks on South Africa's remote Marine Island showed that 90% of chicks examined had plastic in their stomachs apparently fed to them accidentally by their parents. South African seabirds are among the worst affected in the world. Plastics may remain in the stomach, blocking digestion and possibly causing starvation. With all these negatives about plastic "invading" our oceans...

The American Essay in the American Century Ned Stuckey-French, 2011-05-31 In modern culture the essay is often considered an old fashioned unoriginal form of literary styling The word essay brings to mind the uninspired five paragraph theme taught in schools around the country or the antiquated Edwardian meanderings of English gentlemen rattling on about art and old books These connotations exist despite the fact that Americans have been reading and enjoying personal essays in popular magazines for decades engaging with a multitude of ideas through this short form means of expression To defend the essay that misunderstood staple of first year composition courses Ned Stuckey French has written The American Essay in the American Century This book uncovers the buried history of the American personal essay and reveals how it played a significant role in

twentieth century cultural history In the early 1900s writers and critics debated the death of the essay claiming it was too traditional to survive the era's growing commercialism labeling it a bastion of British upper class conventions Yet in that period the essay blossomed into a cultural force as a new group of writers composed essays that responded to the concerns of America's expanding cosmopolitan readership These essays would spark the magazine revolution giving a fresh voice to the ascendant middle class of the young century With extensive research and a cultural context Stuckey French describes the many reasons essays grew in appeal and importance for Americans He also explores the rise of E B White considered by many the greatest American essayist of the first half of the twentieth century whose prowess was overshadowed by his success in other fields of writing White's work introduced a new voice creating an American essay that melded seriousness and political resolve with humor and self deprecation This book is one of the first to consider and reflect on the contributions of E B White to the personal essay tradition and American culture more generally *The American Essay in the American Century* is a compelling highly readable book that illuminates the history of a secretly beloved literary genre A work that will appeal to fiction readers scholars and students alike this book offers fundamental insight into modern American literary history and the intersections of literature culture and class through the personal essay This thoroughly researched volume dismisses once and for all the death of the essay proving that the essay will remain relevant for a very long time to come
