The methodology involves an analysis of transcripts of proceedings and case law of the International Criminal Tribunal for the former Yugoslavia the International Criminal Court and Dutch courts prosecuting international crimes The research demonstrates that it is often difficult to strike a balance between the competing objectives during proceedings when traumatised witnesses testify due to the current lack of regulations and guidelines applicable during investigations and prosecutions This book shows that this balance can and should be achieved when traumatised witnesses testify during criminal proceedings for international crimes The work is an invaluable resource for researchers academics and practitioners in criminal law criminology legal psychology legal psychiatry social anthropology and forensic sciences The American Encyclopædic Dictionary ,1896 Sweet **Daruma** Janice Valerie Young, 2004-11 Magda is thrilled to leave her globalization protesting boyfriend in Toronto and head
