Forging the Past Daniel Marrone, 2016-08-11 At once familiar and hard to place the work of acclaimed Canadian cartoonist Seth evokes a world that no longer exists and perhaps never existed except in the panels of long forgotten comics Seth's distinctive drawing style strikingly recalls a bygone era of cartooning an apt vehicle for melancholy gently ironic narratives that depict the grip of the past on the present Even when he appears to look to the past however Seth born Gregory Gallant is constantly pushing the medium of comics forward with sophisticated work that often incorporates metafiction parody and formal experimentation Forging the Past offers a comprehensive account of this work and the complex interventions it makes into the past Moving beyond common notions of nostalgia Daniel Marrone explores

the various ways in which Seth's comics induce readers to participate in forging histories and memories Marrone discusses collecting Canadian identity New Yorker cartoons authenticity artifice and ambiguity all within the context of comics unique structure and texture Seth's comics are suffused with longing for the past but on close examination this longing is revealed to be deeply ambivalent ironic and self-aware Marrone undertakes the most thorough sustained investigation of Seth's work to date while advancing a broader argument about how comics operate as a literary medium Included as an appendix is a substantial interview conducted by the author in which Seth candidly discusses his work his peers and his influences *Ilan Manouach in Review* Pedro Moura, 2023-09-08 This book takes an interdisciplinary and diverse critical look at the work of comic artist Ilan Manouach situating it within the avant garde movement more broadly An international team of authors engages with the topic from diverse theoretical approaches from traditional narratology and aesthetic close readings of some of Manouach's books engaging with comics own distinctive history modes of production circulation and reception to perspectives from disability studies post colonial studies technological criticism media ecology ontography posthumanist philosophy and issues of materiality and media specificity This innovative and timely volume will interest students and scholars of comic studies media studies media ecology literature cultural studies and visual studies **Breaking the Frames** Marc Singer, 2019-01-09 A CHOICE Outstanding Academic Title 2019 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimation from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself The consequence is a growing disconnect in the ways that comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work *Breaking the Frames* Populism and Prestige in Comics Studies surveys the current state of comics scholarship interrogating its dominant schools questioning their mutual estrangement and challenging their propensity to champion the comics they study Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies making the case for a field that can embrace more critical and oppositional perspectives Working through extended readings of some of the most acclaimed comics creators including Marjane Satrapi Alan Moore Kyle Baker and Chris Ware Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics *R. Crumb* David Stephen Calonne, 2021-02-01 Robert Crumb b 1943 read widely and deeply a long roster of authors including Robert Louis Stevenson Charles Dickens J D Salinger Jack Kerouac William S Burroughs and Allen Ginsberg as well as religious classics including biblical Buddhist Hindu and Gnostic texts Crumb's genius according to author David Stephen Calonne lies in his ability to absorb a variety of literary artistic and spiritual traditions and incorporate them within an original American mode of discourse that seeks to reveal his personal

search for the meaning of life R Crumb Literature Autobiography and the Quest for Self contains six chapters that chart Crumb's intellectual trajectory and explore the recurring philosophical themes that permeate his depictions of literary and biographical works and the ways he responds to them through innovative dazzling compositional techniques Calonne explores the ways Crumb develops concepts of solitude despair desire and conflict as aspects of the quest for self in his engagement with the book of Genesis and works by Franz Kafka Jean Paul Sartre the Beats Charles Bukowski and Philip K Dick as well as Crumb's illustrations of biographies of musicians Jelly Roll Morton and Charley Patton Calonne demonstrates how Crumb's love for literature led him to attempt an extremely faithful rendering of the texts he admired while at the same time highlighting for his readers the particular hidden philosophical meanings he found most significant in his own autobiographical quest for identity and his authentic self
