Academic Business Studies June Exam Memorandum 2015:

The Closing of the Liberal Mind Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties **Yearbook of International**

Gordon, Colin Mayer, Jennifer Payne, 2016-08-04 The financial crisis of 2007-9 revealed serious failings in the regulation of financial institutions and markets and prompted a fundamental reconsideration of the design of financial regulation As the financial system has become ever more complex and interconnected the pace of evolution continues to accelerate It is now clear that regulation must focus on the financial system as a whole but this poses significant challenges for regulators Principles of Financial Regulation describes how to address those challenges Examining the subject from a holistic and multidisciplinary perspective Principles of Financial Regulation considers the underlying policies and the objectives of regulation by drawing on economics finance and law methodologies The volume examines regulation in a purposive and dynamic way by framing the book in terms of what the financial system does rather than what financial regulation is By analysing specific regulatory measures the book provides readers to the opportunity to assess regulatory choices on specific policy issues and encourages critical reflection on the design of regulation

The Emergence of Brand-Name Capitalism in Late Colonial India Douglas E. Haynes, 2022-09-22 This book examines the emergence of professional advertising in western India during the interwar period It explores the ways in which global manufacturers advanced a brand name capitalism among the Indian middle class by promoting the sale of global commodities during the 1920s and 1930s a time when advertising was first introduced in India as a profession and underwent critical transformations Analysing the cultural strategies both verbal and visual used by foreign businesses in their advertisements to capture urban consumers Haynes argues that the promoters of various commodities crystalized their campaigns around principles of modern conjugality He also highlights the limitations of brand name capitalism during this period examining both its inability to cultivate markets in the countryside or among the urban poor and its failure to secure middle class customers With numerous examples of illustrated advertisements taken from Indian newspapers the book discusses campaigns for male sex tonics and women's medicines hot drinks such as Ovaltine and Horlicks soaps such as Lifebuoy Lux and Sunlight cooking mediums such as Dalda and electrical household technologies By examining the formation

of brand name capitalism and two key structures that accompanied it the advertising agency and the field of professional advertising this book sheds new light on the global consumer economy in interwar India and places developments in South Asia into a larger global history of consumer capitalism
