ateliers and academics of Paris shared this view and Cox's experiences and opinions often pungently expressed were thus more typical of this great majority than were those of experimenters such as the impressionists who were gaining notice while Cox was in Paris. He commented frequently on current fads, fancies and serious developments in the art world during this transitional period. Cox also described his life and travels outside the academy. These letters are a valuable commentary on the culture of late nineteenth century Europe. He reported on concerts, operas, plays, paintings and literature and the varied kinds of life, the look of the land, towns, buildings and people he encountered during his summer travels to the Seine valley, northern Italy and the artist colony in Grez south of Paris. Art critics, historians and collectors of traditional and academic art of this period will find in this book the beginnings of the traditionalist view for which Cox later became famous. In addition, the letters are an often moving chapter in the development of an intellectually precocious young man from the American Midwest who was determined to become a painter with ideas as well as skill.
