Detailed information of LockDown Browser and Monitor for students prepared by UM Learn is available in Appendix (the last page of this document). Make sure to take the practice quiz on the same device that you will be using for the midterm exam.

To minimize potential academic dishonest behaviors during this online exam and to protect students who behave appropriately during the exam, we did following for the exam questions:

1. Exam is shuffled at question level, which means that the choice order (for multiple choice questions) and question order (within a big question) could be different among students.
2. Numerical question pools are individually established for some numerical questions, which suggests that, for a given numerical question, students would find different numbers in the question.
3. **You are not allowed to move backward through pages, which means you can not go back to revise answers once submitted. You can only move forward through pages!!!**

Internet Connection:

Make sure you are taking this exam in a location with a stable Internet connection. To prevent connectivity issues, turn off other devices and applications that may be using the Internet (e.g., TV, Netflix, social media, etc.).
