"Raising Sexually Pure Kids" Claire Greslé-Favier, 2009 Raising Sexually Pure Kids Sexual Abstinence Conservative Christians and American Politics analyzes pro abstinence discourses issued by the conservative Christian community and the G W Bush administration to underline that abstinence is not a peripheral matter but is a cultural and political issue of great significance in US society especially in the past decade This book seeks to bring to light how pro abstinence discourses coalesce most of the core agendas of conservative Christians like creationism parental rights or the culture war and enabled them and the Bush administration to on the one hand preserve traditional hierarchies and on the other hand maintain the sense of threat necessary to the protection of the status quo and to the enduring commitment of the conservative Christian constituency

Spaces for Children T.G. David, C.S. Weinstein, 2013-11-11 As a developmental psychologist with a strong interest in children s response to the physical environment I take particular pleasure in writing a foreword to the present volume It provides impressive evidence of the concern that workers in environmental psychology and environmental design are displaying for the child as a user of the designed environment and indicates a recognition of the need to apply theory and findings from developmental and environmental psychology to the design of environments for children This seems to me to mark a shift in focus and concern from the earlier days of the interaction between environmental designers and psychologists that occurred some two decades ago and provided the impetus for the establishment of environmental psychology as a subdiscipline Whether because children though they are consumers of designed environments are not the architect s clients or because it seemed easier to work with adults who could be asked to make ratings of environmental spaces and comment on them at length a focus on the child in interaction with environments was comparatively slow in developing in the field of environment and behavior As the chapters of the present volume indicate that situation is no longer true today and this is a change that all concerned with the well being and optimal functioning of children will welcome

Publisher Description **Mathematics Teaching, Learning, and Liberation in the Lives of Black Children** Danny Bernard Martin, 2010-06-21 With issues of equity at the forefront of mathematics education research and policy Mathematics Teaching Learning and Liberation in the Lives of Black Children fills the need for authoritative rigorous scholarship that sheds light on the ways that young black learners experience mathematics in schools and their communities This timely collection significantly extends the knowledge base on mathematics teaching learning participation and policy for black children and it provides new framings of relevant issues that researchers can use in future work More importantly this book helps move the field beyond analyses that continue to focus on and normalize failure by giving primacy to the stories that black learners tell about themselves and to the voices of mathematics educators whose work has demonstrated a

commitment to the success of these children

How and Why to Read and Create Children's Digital Books Natalia Kucirkova, 2018-12-03 How and Why to Read and Create Children's Digital Books outlines effective ways of using digital books in early years and primary classrooms and specifies the educational potential of using digital books and apps in physical spaces and virtual communities With a particular focus on apps and personalised reading Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co created by reading communities Divided into two parts Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom Specific attention is paid to the ways in which digital books can support individual children's strengths and difficulties digital literacies language and communication skills Part II explores digital books created by children their caregivers teachers and librarians and Kucirkova also offers insights into how smart toys tangibles and augmented virtual reality tools can enrich children's reading for pleasure How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers as well as designers librarians and publishers All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing Praise for How and Why to Read and Create Children's Digital Books This is an exciting and innovative book not least because it is freely available to read online but because its origins are in primary practice The author is an accomplished storyteller and whether you know as yet little about the value of digital literacy in the storymaking process or you are an accomplished digital player this book is full of evidence informed ideas explanations and inspiration Liz Chamberlain Open University At a time when children's reading is increasingly on screen many teachers parents and carers are seeking practical straightforward guidance on how to support children's engagement with digital books This volume written by the leading expert on personalised e books is packed with app reviews suggestions and insights from recent international research all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice Providing accessible guidance on finding choosing sharing and creating digital books it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age Cathy Burnett Professor of Literacy and Education Sheffield Hallam University

Fields of Play Noel Dyck, 2012-10-04 Thousands of children participate in community sports every year enjoying recreation time with their peers getting healthy exercise and learning a variety of personal and group skills At the same time children's sports are not without controversy parents can be overly invested in their children's exploits competitive success is often the focus and rising costs can limit participation Consider too that these activities billed as being for the kids are often overlaid with other agendas by the adults who volunteer work and generally support children's sports Noel Dyck incorporates nearly two decades of ethnographic field research into this anthropologically informed account that illustrates how all those involved in children's sports boys and girls parents coaches and sport officials shape these complex vibrant fields of play In the process he explores

larger questions and debates about contemporary family and community and the shaping of childhood youth and adulthood Bridging anthropology sport studies and childhood studies Fields of Play offers a rich understanding of an area that has to date gained relatively little attention by social scientists Athletic Care and Rehabilitation Dr. Amandeep Singh, 2021-05-07
