Transforming Reading Skills in the Secondary School Pat Guy, 2015-05-14. *Transforming Reading Skills in the Secondary School* is a commonsense text designed to help practitioners working in a mainstream context. The book suggests ways to develop the underlying skills necessary for good reading through multiple pathways, such as mainstream subject lessons, individual and small group support sessions, whole school initiatives, the use of reading mentors, and home school liaison opportunities. Brimming with ideas and activities, Pat Guy explores a variety of different aspects of reading, including how reading is taught and why it is such an important skill for the individual, how to motivate the reluctant reader, the role played by the mainstream specialist.

To Read Or Not to Read Dana Gioia,2008-03 This report gathers collates the best national data available to provide a reliable comprehensive overview of American reading today This report relies on the most accurate data available which consists of large nat studies conducted on a regular basis by U S fed agencies supplemented by academic foundation business surveys Although there has been measurable progress in recent years in reading ability at the elementary school level all progress appears to halt as children enter their teenage years There is a general decline in reading among teenage adult Americans Both reading ability the habit of regular reading have greatly declined among college grad The declines have demonstrable social economic cultural civic implications Illus *Paths of Development in L1 and L2 acquisition* Sharon Unsworth,Teresa Parodi,Antonella Sorace,Martha Young-Scholten,2006-02-15 The main focus of generative language development research in recent decades has been the logical problem of language acquisition how learners go beyond the input to acquire complex linguistic knowledge This collection deals with the complementary issue of the developmental problem of language acquisition How do learners move from one developmental stage to another and how and why do grammars develop in a certain fashion Building on considerable previous research the authors address both general and specific issues related to paths of development These issues are tackled through considering studies of L1 and L2 children and L2 adults learning a range of languages including Dutch English French German Greek and Japanese Predication Theory Donna Jo Napoli,1989-05-11 In this study Donna Jo Napoli takes a common sense approach to the notions of argument and predicate Discussions of predication within Government and Binding theory have stressed the configurational properties of the phrases involved and Napoli argues that this has led to proposals for more and more elaborate syntactic structures that nevertheless fail to provide genuinely explanatory accounts She presents a convincing case for viewing the notion of predicate as a semantic primitive which cannot be defined by looking simply at the lexicon or simply at the syntactic structure and offers a theory of predication where the key to the subject predicate relationship is theta role assignment The book then goes on to offer principles for the coindexing of a predicate with its subject role player These coindexing principles make use of Chomsky s 1986 notion of barriers but instead of being sensitive to configurational notions like c command and governing category Napoli argues that they are sensitive to thematic structure In the final chapter of the book Napoli extends the principles for predication coindexing to anaphor binding by introducing the notion of argument ladders
