Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret,Gordon A. Craig,Felix Gilbert,2010-10-01 Authoritative and convincing New York Times Book Review The classic reference on the theory and practice of war The essays in this volume analyze war its strategic characteristics and its political and social functions over the past five centuries The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present Makers of Modern

Strategy from Machiavelli to the Nuclear Age takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship Three essays are repinted from the earlier book while four others have been extensively revised The rest twenty two essays are new The subjects addressed range from major theorists and political and military leaders to impersonal forces Machiavelli Clausewitz and Marx and Engels are discussed as are Napoleon Churchill and Mao Other essays trace the interaction of theory and experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past **The Saturday Review of Politics,**

Literature, Science, Art, and Finance ,1866 **The Conduct of War, 1789-1961** Maj.-Gen J. F. C. Fuller,2018-04-03 A tour de force in the way it embraces and weaves together the political economic and military factors B H Liddell Hart A work which sums up succinctly the learning of a life time New Statesman The Conduct of War 1789 1961 which was originally published in 1961 is a study of the way in which political and economic changes since the French Revolution have altered both the techniques and the aims of war The author begins by studying the limited wars that were possible in the age of absolute rulers and the destructive impact of revolutionary and democratic government on this state of affairs Not only did the new armies of the Napoleonic age grow immensely in size and military power the aims for which the war was fought began to change Now it is no longer a question of forcing the enemy government to change its policy in specific ways the purpose is the destruction of that government and the absolute surrender of its people Such a concept of war the author contends is a disastrous return to barbarism and in this book he considers his study in the light of post war events with Communist countries *The Jewish Veteran* ,1940 **Stephen Crane** Richard M. Weatherford,2013-07-04 This set comprises 40 volumes covering 19th and 20th century European and American authors These volumes will be available as a complete set mini boxed sets by theme or as individual volumes This second set compliments the first 68 volume set of Critical Heritage published by Routledge in October 1995 **Golden Jubilee Edition of The Paradise of Childhood**
