*Fostering Children's Mathematical Power* Arthur Baroody, Arthur J. Baroody, Jesse L.M. Wilkins, Ronald T. Coslick, 1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world. To meet the challenges of the 21st century students will especially need mathematical power: a positive disposition toward mathematics; curiosity and self-confidence; facility with the processes of mathematical inquiry; problem solving; reasoning and communicating; and well-connected mathematical knowledge: an understanding of mathematical concepts, procedures, and formulas. This guide seeks to help teachers achieve the capability to foster children's mathematical power; the ability to excite them about mathematics; help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems. The investigative approach attempts to foster mathematical power by making mathematics instruction process-based, understandable, or relevant to the everyday life of students. Past efforts to reform mathematics instruction have focused on only one or two of these aims, whereas the investigative approach accomplishes all three. By teaching content in a purposeful context, an inquiry-based fashion, and a meaningful manner, this approach promotes children's mathematical learning in an interesting, thought-provoking, and comprehensible way. This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom. It not only dispenses information but also serves as a catalyst for exploring, conjecturing, discussing, and contemplating the teaching and learning of mathematics.

**A Guide for Using The Whipping Boy in the Classroom** Jayne Merriman Yount, 1997-02 Includes sample lesson plans, pre and post reading activities, a biographical sketch of the author, book summary, vocabulary list, and suggested vocabulary activities, book report ideas, research ideas, a culminating activity, options for unit tests, bibliography, and answer key.

**Language Power: Grades 3-5 Level C Teacher's Guide** Nancy Bosse, Christine Dugan, 2012-10-30

*Middle School Life Science* Judy Capra, 1999-08-23 Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple, it's convenient.
