

Give Me a Brake!

One of the most important components of your Acura's braking system is the brake fluid. Do you apply pressure to the brake pedal? That's a simplified description of a complex process, which includes action by the master cylinder, the ABS (anti-lock brake system) controlling the calipers, and numerous sensors.

To ensure that these components continue to perform their intended function requires a fluid that does not compress and that can withstand very high temperatures without boiling.

Because brake fluid is hygroscopic, over time it can absorb moisture, lowering the fluid's boiling point and increasing the likelihood of corrosion in many critical components. That can compromise your safety and be expensive to repair.

Changing your brake fluid every three years and specifying Honda Heavy Duty DOT 3 brake fluid will help ensure that you get the maximum safety and service life from your braking system.

Oil—the Life of Your Acura

You probably assume that oil is a lubricant, but did you know your vehicle oil has many other functions as well?

Your oil also plays a critical role in keeping your engine cool. The combustion process generates heat that can reach several thousand degrees. Without oil, your vehicle's coolant system would instantly overheat.

Oil also helps keep your engine clean. By products of combustion and other contaminants (such as dust from braking or suspension) are carried to the oil filter where they are captured and held between oil changes.

Following the recommended oil change intervals can help ensure that the oil in your Acura's engine is up to the job.

Get On the Right Track!

How can Acura get a bad reputation? Does it mean to blame only when you're the other? You may need our precision four-wheel alignment.

Correct wheel alignment can significantly increase the life of your tires, and that's important to reducing your per-mile maintenance costs. Additionally, correct wheel alignment can help ensure that your vehicle handles as it was designed. Our Acura factory-trained service technicians will check and adjust all alignment settings, check tire pressure and wear patterns, center the steering wheel and get you back on track!

Regular Preventive Maintenance

Regular preventive maintenance for your Acura is one of the best ways to protect your investment. Proper maintenance is also essential to your safety and that of your passengers.

When your vehicle is serviced at our dealership, factory-trained technicians use both technical information and special tools to perform all recommended procedures. Our level of service is designed to be one par with the quality of the vehicle you own.

Our Acura technicians know Acuras inside and out, so they can spot even small problems and proactively before they require costly repairs. After all, every genuine Acura performance economy is to maintain the performance level you expect from your Acura.

Secure Honda Fluids

To help ensure a long service life for your Acura, we use genuine Honda fluids when servicing your vehicle. Take our PSF (PSF) 5W-30 Coolant for example. It's a uniquely formulated ethylene glycol based product engineered by Honda R&D to help give maximum service life to all Acura cooling systems. For convenience, it has been blended to the factory specified 50/50 mix with purified, de-ionized water.

Over 85% of the vehicles on the market use ethylene glycol as a premix, but these vehicles can cause premature wear to water pump seals, so Honda engineers formulated a superior corrosion inhibitor without silicates.

For service and all other genuine Honda fluids, meet the demanding specifications set by our engineers.

what's safe, reliable and fuel frugal Lemon-Aid Used Cars and Trucks 2012-2013 Phil Edmonston, 2012-05-19 Lemon Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car and truck books on the market. U.S. automakers are suddenly awash in profits and South Koreans and Europeans have gained market shares while Honda, Nissan and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all new Lemon Aid Used Cars and Trucks 2012-2013 has the answers including more vehicles rated with some redesigned models that don't perform as well as previous iterations, downrated more roof crash worthiness ratings along with an expanded cross border shopping guide. A revised summary of safety and performance related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst beaters on the market. More secret warranties taken from automaker internal service bulletins and memos than ever. *Lemon-Aid New Cars and Trucks 2013* Phil Edmonston, 2012-12-01 Canada's automotive Dr. Phil says there's never been a better time to buy a new car or truck. For deals on wheels 2013 will be a perfect storm. There's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar, a worldwide recession driving prices downward and a more competitive Japanese auto industry that's still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases and free auto maintenance programs. Buy, sell or hold. Which cars and trucks are wallet friendly and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide. **Automobile Magazine**, 2008 **Kiplinger's Personal Finance**, 2008-03 The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. *Bicycling*, 2008-09 Bicycling magazine features bikes, bike gear, equipment reviews, training plans, bike maintenance, how-tos and more for cyclists of all levels.
