A.D.A.M. Interactive Anatomy Online Student Lab Activity Guide Scott D. Schaeffer, 2013-02-15 The ADAM Interactive Anatomy Online Student Lab Activity Guide is geared to help bring even more meaning and application to the material you're learning in your Anatomy Physiology course. No matter what allied health discipline you're preparing for, this guide will help bring the material to life, make the content more meaningful to the real world, and place you on the path to mastery of human anatomy and physiology. This lab activity guide can be used in conjunction with A D A M Interactive Anatomy Online www.interactiveanatomy.com which allows the additional benefit of complete immersion in a layer by layer virtual dissection experience.

A.D.A.M. Interactive Anatomy Student Lab Guide Mark Lafferty, Samuel Panella, 2002 This lab guide gets readers up and running quickly with exercises that help them get the most out of the more than 20,000 images in A D A M Interactive Anatomy AIA software. Authors Lafferty and Panella are active AIA users who know what readers need to bridge the gap between systems-based anatomy books and the extensive illustration program in AIA. For college instructors and students.

Instructors Resource Guide Elaine N. Marieb, Barbara Stewart, 2001-11-02

Computers, Curriculum, and Cultural Change Jr. Provenzo, 2004-09-22 *Computers Curriculum and Cultural Change* An Introduction for Teachers Second Edition is a comprehensive introduction to using computers in educational settings. What distinguishes this text from others on the topic is its focus on the issue of how computers are redefining our culture and society and the work of schools: the idea of using the computer as a tool for increasing efficiency and productivity in curriculum and the concept of the computer as a tool not only for efficiency but actually as a means of enhancing intelligence. This text provides students with an introduction to basic computer skills and experience enhanced by helpful pedagogical aids including case studies and highlighted features such as Portfolio Development, Reflective Practice, Computing Timelines, Filmographies, bibliographical sources, and a text-linked glossary of key computer terms. New in the Second Edition: In addition to being thoroughly updated, a new section has been added to Chapter 1: Creating an Electronic Portfolio with activities linked to the standards for educational computing established by the International Society for Technology in Education (ISTE). Electronic portfolio activities at the end of each chapter give students the hands-on practical skills they need and at the same time cover the necessary theoretical and conceptual material for an introductory educational computing course.

Learning and Leading with Technology, 2002

Human Anatomy Laboratory Manual with Cat Dissections Elaine Nicpon Marieb, 2001 textformat 02 With 29 exercises covering all body systems, a clear engaging writing style, and full color illustrations, this thoroughly updated edition offers readers everything needed for a successful lab experience. For college instructors and students.
