## **Addison Wesley Math Ontario Curriculum Companion:**

*Math Makes Sense 1*, 2006 Curriculum companion provides you with the specific support you need to maintain 100% curriculum coverage according to the revised 2005 release of the Ontario Curriculum Mathematics Makes Sense, Grade 2 Carole Saundry, 2004 Math Makes Sense 5, 2006 Curriculum companion provides you with the specific support you need to maintain 100% curriculum coverage according to the revised 2005 release of the Ontario Curriculum The Teacher's Classroom Companion Mary Coons, 1993 THE TEACHER S CLASSROOM COMPANION A HANDBOOK FOR PRIMARY SCHOOL TEACHERS takes you step by step through setting up your classroom s physical layout Helps you plan the year s curriculum make your classroom a place where children are eager to learn organize your classroom efficiently build class unity discipline effectively non punitively give each child individual attention develop a program focusing on individual learning needs record individual progress work effectively with students parents Advance praises I welcome such a book especially one coming from a talented teacher who truly practiced what she preaches I observed student teachers in Mary s primary classrooms over the years I always recommended Mary as a model primary teacher Mary Crosby Ph D Director Elementary Teaching Program Dominican College After I began reading I couldn t put it down It s superb It s exactly what student teachers need to know It s practical written in the language they will understand Patricia Mitchell Ph D University of San Francisco School of Education A rich resource for students preparing for the teaching profession The care with which practical suggestions are combined with curriculum content impressed me Carol L Swain Ph D Director Multiple Subject Program Saint Mary s College *Hands-On English Language Learning: Early Years* Jennifer E. Lawson, 2009-09-04 The Hands On English Language Learning program is a resource for classroom teachers specialist teachers working with English language learners and other educational professionals who support these students To assist your students in developing language skills this resource includes specific curricular connections for each lesson to identify links to subject area themes in language arts mathematics science social studies health physical education and the arts integrated class activities to promote learning in context for all students in the classroom suggested activities focus on curricular topics in all subject areas while supporting English language learners relevant topics such as the classroom and school clothing food hobbies and interests plants and animals of Canada the world and the environment age appropriate high interest learning activities that foster the development of essential English language vocabulary and skills in listening speaking reading writing viewing and representing activities in keeping with the philosophy of all Portage Main Press Hands On programs that are student centred and focus on real life hands on experiences access to digital reproducibles Find download instructions in the Appendix of the book Math Work Stations Debbie Diller, 2011 In Math Work Stations you ll find ideas to help children develop conceptual understanding and skills use math vocabulary as they talk about their mathematical thinking and connect big ideas to meaningful independent exploration and practice This book details how to set up manage and keep math stations

going throughout the year There s even a chapter devoted solely to organizing and using math manipulatives

**Activating Assessment for All Students** Mary Hamm,Dennis Adams,2013 Hamm and Adams present models to help teachers identify student learning problems recognizing when to re teach when to move ahead and when to explain or give more examples Activating Assessment for All Students takes all of these into account when it provides differentiated science math methods and goes on to suggest ways that formative assessment practices can inform differentiated teaching learning and assessment These methods promote success for more students by helping teachers develop informative assessment for lessons and related tools for reaching the varying levels of student competencies within their classes This book builds on the expanding knowledge of what works in classrooms and suggests approaches that can open up individual and group possibilities for science and mathematics instruction It intends to help you answer the following questions What is differentiated instructional assessment How can I amplify the results of DI by using formative assessments How might quality assessment tools like portfolios benefit all students How will I know that differentiated formative assessment works

**Teaching Secondary and Middle School Mathematics** Daniel J. Brahier,2009 In this extensively revised third edition of Teaching Secondary and Middle School Mathematics scholar and classroom teacher Daniel Brahier presents concise current and meaningful descriptions of what it takes to be an effective teacher of mathematics With up to date research classroom tested teaching ideas and a vibrant writing style this book provides essential information on curriculum teaching and assessment issues related to middle secondary mathematics Every chapter includes a contextualizing introduction scenarios and dialogues for student reflection recommended resources for further study and closing activities and discussion questions to cement chapter concepts

**Jacket Educating Young Children** Mary Hohmann,David P. Weikart,1995 Divided into three parts this book reviews the basic concepts of the High Scope preschool curriculum and its development implementation and effectiveness The introduction offers a retrospective of the program s history describes the five basic principles that form the framework of the approach and discusses some of the reasons for its effectiveness Part 1 analyzes the core idea in the development of the High Scope curriculum active learning The concept of active learning is discussed in several contexts as an essential ingredient for learning as a basis for how adults can create a supportive social climate and as a foundation for working with the families or working as a team to make the active learning process effective in a particular setting with a particular group of children Part 2 discusses methods for creating an environment that promotes active learning It suggests selecting and arranging materials from which children can choose and manipulating and developing the daily routine so children have many opportunities to initiate plan carry out and discuss their actions and ideas Part 3 introduces 58 key experiences that can guide adults while they plan activities to support development in creative representation language and literacy initiative and social relations movement music classification seriation number space and time Each chapter includes a list of references and related readings
