Low Battery Warning

When the keypad displays **BAT** with no zone number, this indicates that the system back up battery needs to recharge. If AC power is out, the security system may shut down once the battery is below the operating level. When AC power is restored, the panel recharges the battery. If the warning exists more than 24-48 hours after AC power is restored, it is time to replace it.

Stop Chirping or Beeping

To silence trouble beeps due to a **BAT** alert, press [1 OFF]. The low battery condition will remain on until the battery is recharged or replaced.

Obtaining New Battery

Order your system battery under [My Alarm > Order Equipment > Replacement Batteries](#) or purchase one at a local battery supply store. When purchasing a replacement battery from a battery retailer or battery supply store, it is helpful to take the old one to ensure the replacement battery is the same voltage and amperage, as well as the same size. You can also call ADT Customer Care to order your battery.
