**Jacob Dlamini**

## **Afrikaans 2014 Finals Memo:**

*The Social and Political History of Southern Africa's Languages* Tomasz Kamusella, Finex Ndhlovu, 2017-11-21 This book is the first to offer an interdisciplinary and comprehensive reference work on the often marginalised languages of southern Africa. The authors analyse a range of different concepts and questions including language and sociality, social and political history, multilingual government and educational policies. In doing so they present significant original research ensuring that the work will remain a key reference point for the subject. This ambitious and wide-ranging edited collection will appeal to students and scholars of southern African languages, sociolinguistics, history and politics.

*The History of Negation in the Languages of Europe and the Mediterranean* Anne Breitbarth, Christopher Lucas, David Willis, 2020 This is the second book in a two-volume comparative history of negation in the languages of Europe and the Mediterranean. It identifies typical developments found repeatedly in the histories of different languages and explores their origins as well as investigating the factors that determine whether change proceeds rapidly, slowly or not at all.

**The Terrorist Album** Jacob Dlamini, 2020-05-05 An award-winning historian and journalist tells the very human story of apartheid's afterlife, tracing the fates of South African insurgents, collaborators and the security police through the tale of the clandestine photo album used to target apartheid's enemies. From the 1960s until the early 1990s, the South African security police and counterinsurgency units collected over 7 000 photographs of apartheid's enemies. The political rogue's gallery was known as the terrorist album, copies of which were distributed covertly to police stations throughout the country. Many who appeared in the album were targeted for surveillance. Sometimes the security police tried to turn them; sometimes the goal was elimination. All of the albums were ordered destroyed when apartheid's violent collapse began. But three copies survived the memory purge. With full access to one of these surviving albums, award-winning South African historian and journalist Jacob Dlamini investigates the story behind these images: their origins, how they were used, and the lives they changed. Extensive interviews with former targets and their family members testify to the brutal and often careless work of the police. Although the police certainly hunted down resisters, the terrorist album also contains mug shots of bystanders and even regime supporters. Their inclusion is a stark reminder that apartheid's guardians were not the efficient, if morally compromised, law enforcers of legend, but rather blundering agents of racial panic. With particular attentiveness to the afterlife of apartheid, Dlamini uncovers the stories of former insurgents, disenchanted with today's South Africa; former collaborators seeking forgiveness; and former security police reinventing themselves as South Africa's newest export: security consultants serving as mercenaries for Western nations and multinational corporations. *The Terrorist Album* is a brilliant evocation of apartheid's tragic caprice, ultimate failure and grim legacy.

**Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English, and to a much

lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Positive Educational Approaches to Teaching Effectiveness and Student Well-being* Hans Henrik Knoop, Mirna Nel, Sufen Chen, Rebecca Shankland, Llewellyn Ellardus Van Zyl, Matthew Cole, 2022-11-08
