Publishers Weekly *Lost Orthodoxy (Paternal Light - Heart of the Gospel through the Eyes of the Kings of Christian Theology St. Justin Martyr and St. Irenaeus of Lyons)* Jonathan Ramachandran, 2018-11-24 The Lost Orthodoxy Book attempts to Research the Hope of Christ Centered Universalism by comparing Bible Verses to the Exegesis done by St Justin Martyr and St Irenaeus of Lyons It asserts arguments in support of the concept of ages or aeons or olams to come in St Irenaeus usage of these related Biblical Words together with St Justin Martyr s harsh language regarding the punishment of the Wicked which has also been interpreted to refer to some annihilation concept Hence the usage by these saints either implying ages or end by destruction by their language describing the punishment of the wicked may thus imply an end in reference to the original words found likewise in Holy Scripture too The sin in the Body and Soul may thus be referred to as eternally destroyed where the damaged soul and spirit may be saved thereafter In support of such an exegesis some First Christianity Writings from other early Church leaders and Christian Prophecies such as the Apocalypse of Peter and the Sibylline Oracles are considered where these have a Section Describing God Saving the Wicked post Judgment after a long time as per the prayers of the Saved Christian Righteous for these to be Rescued Finally from the Lake of Fire or Gehenna itself thereby cancelling the Eternal Sentence by His Great Mercy which Triumphs over Judgment and giving these a lower place in another Eternal Life thereafter

The Making of a Savior Bodhisattva Shi Zhiru, 2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang

one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld. Such a model the author argues obscures the many faceted personality and iconography of Dizang. Rejecting it, she deploys a broad array of materials: art, epigraphy, ritual texts, scripture, and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries. Rather than privilege any one genre of evidence, the author treats both material artifacts and literary works as canonical and noncanonical sources. Adopting an archaeological approach, she excavates motifs from and finds resonances across disparate genres to paint a vibrant, detailed picture of the medieval Dizang cult. Through her analysis, the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism, functioning as a kaleidoscopic lens encompassing a multivalent religio-cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion.

The Making of a Savior Bodhisattva presents a fascinating wealth of material on the personality, iconography, and lore associated with the medieval Dizang. It elucidates the complex cultural, religious, and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field. Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history; she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism.

Ritual in Human Evolution and Religion Matt J. Rossano, 2020-10-04. This book explores the role of ritual in social life, human evolution, and religion. It explains the functions and purpose of varied rituals across the world by arguing they are mechanisms of resource management, providing a descriptive tool for understanding rituals and generating predictions about ritual survival. By showing how rituals have resulted from the need to cultivate social resources necessary to sustain cooperative groups, Rossano presents a unique examination of the function of rituals and how they cultivate, mobilize, and direct psychological resources. Rossano examines rituals from a diverse range of historical contexts, including the Greco-Romans, Soviet Russians, and those in crisis cults. The book shows how rituals address societal and community problems by cultivating three psychological resources: commitment to communal values, goodwill both of humans and supernatural agents, and social support or social capital. Holding communities together in the face of threat, disaster, or apathy is one of ritual's primary functions, and the author describes how our ancestors used ritual to become the highly social, interdependent primate that is *Homo sapiens*. Including examples from all over the world and providing detailed descriptions of both past and current ritual practices, this is fascinating reading for students and academics in psychology, sociology, religion, anthropology, and sociology.
