Commerce. Subcommittee on Commerce, Consumer Protection, and Competitiveness, 1988 Why Pride Matters More Than Money Jon R. Katzenbach, 2003-03-11 The book that turns our understanding of motivation on its head and shows why most companies get it wrong There are few people with more experience and accumulated wisdom about the inner workings of business and how people can work together more effectively than Jon Katzenbach His groundbreaking research has resulted in several important books including *The Wisdom of Teams* and *Real Change Leaders* Over the past several years he has turned his attention to one of the perennial questions of leaders everywhere How do I motivate my employees Most everyone frets about how to devise schemes that will keep the troops revved up Conventional wisdom or at least the practice at most companies often centers on money as the primary motivating force Many also rely on intimidation which like money generally has a short term impact But what Katzenbach has found in his research at many organizations is that both of these practices do little to build the long term sustainability of an organization For that you need a powerful force that has been until this point understood by few managers and implemented by fewer still pride From the front lines to the executive suite most people are motivated by feelings of accomplishment approval and camaraderie It is why the best employees strive well beyond performance levels that will yield them higher pay and why most true professionals relentlessly avoid retirement Why does Southwest Airlines consistently turn in the highest levels of performance and profitability of any company in the airline business What can the U S Marines teach us about individual commitment that can be used in the for profit world How is General Motors overcoming its history of labor management enmity through the efforts of pride builders from both the union and the management side By drawing on what he has learned from these and many other organizations Jon Katzenbach provides a practical program for understanding the role of pride Money is not the motivator most people think it is Katzenbach shows why pay for performance programs by themselves result in employees who focus on self serving behavior and skin deep organizational commitment Money tends to be a short term motivational device and works best during times of growth but pride works in bad times as well as good Cultivating pride is an investment that yields high returns on workforce performance over time and is not nearly as costly as relying solely on monetary compensation and the turnover risks that accompany a show me the money culture Katzenbach shares unique insights and specifics about how the best mid level pride builders take advantage of the world's greatest motivational force even in environments as challenging as General Motors and Aetna He shows how managers at every level are missing a powerful lever if they are not instilling pride as a primary force for building their organization Also available as an eBook **Individual Employment Rights Cases**, 2002 Great Pajama Jobs Kerry E.
