Black Tax Niq Mhlongo, 2019-09-12 The real significance of this book lies in the fact that it tells us more about the everyday life of black South Africans It delves into the essence of black family life and the secret anguish of family members who often battle to cope Niq Mhlongo A secret torment for some a proud responsibility for others black tax is a daily reality for thousands of black South Africans In this thought provoking and moving anthology a provocative range of voices share their deeply personal stories With the majority of black South Africans still living in poverty today many black middle class households are connected to working class or jobless homes Some believe supporting family members is an undeniable part of African culture and question whether it should even be labelled as a kind of tax Others point to the financial pressure it places on black students and professionals who as a consequence struggle to build their own wealth Many feel they are taking over what is essentially a government responsibility The contributions also investigate the historical roots of black tax the concept of the black family and the black middle class In giving voice to so many different perspectives Black Tax hopes to start a dialogue on this widespread social phenomenon **South African Language Rights Monitor 2009** Johan

Lubbe, Theodorus du Plessis, 2013-12-01 The bilingual South African Language Rights Monitor 2009 Suid Afrikaanse Taalregtemonitor 2009 is the eighth annual report on the situation pertaining to language rights and language matters in general in South Africa It cultivates an awareness of language rights and promotes a culture of taking proactive measures in order to oppose violations of language rights Such awareness could lead on the one hand to the further democratisation of the community and on the other to increasing participation in public life Reflections on the 2019 South African General Elections Joleen Steyn Kotze, Narnia Bohler-Muller, 2020-12-18 Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country's electoral democracy The volume engages questions on land election campaigns voter turnout voter apathy and how opposition parties

will be forced to co exist in the context of declining electoral dominance the ANC once comfortably held An important reflection on the lessons of the 2019 South African General Elections the contributors ask Quo Vadis South Africa The 2019 General Elections marked a watershed in South Africa s political landscape The ANC under the banner of a narrative of regeneration and getting back on the moral path dipped below the 60 % mark for the first time in South Africa s democratic history This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature the erosion of its integrity and disillusionment with its performance as a governing party Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC Caught in their own factional battles and in the midst of corruption scandals opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter Considering the future of South Africa s electoral democracy at 25 years of democracy Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies South Africa Governance and Elections The chapters in this book were originally published as a special issue of *Politikon South African Journal of Political Studies*

The African National Congress and the Regeneration of Political Power Susan Booyesen, 2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come

Clown of the City Stephan de Beer, 2020-11-25 At opening this book everything one has learned or thought about urban ministry is challenged and changed. Stephan de Beer offers a fresh, exciting and thoroughly engaging approach. The title is enticing and playful, but the book is a serious grappling with the daunting realities of a shadowed, marginalised urban life. It does not theorise or pontificate about a concept. The author is not a distant, neutral observer. He is an engaged minister to the people, a struggler in their struggles, a prophet to the powerful. This book invites the reader to join the people of the cities under siege by failed policies, empty promises and disastrous politics in their struggles for meaningful life, and it makes a powerful, persuasive case. Stephan de Beer has offered us a great gift and a wonderful opportunity to think and hope anew and differently about the life, reality and future of the city.

Spatial Justice After Apartheid Jaco Barnard-Naudé, Julia Chrystostalis, 2022-08-25 This book considers the question of spatial justice after apartheid from several disciplinary perspectives: jurisprudence, law, literature, architecture, photography and psychoanalysis are just some of the disciplines engaged here. However, the main theoretical device on which the authors comment is the legacy of what, in Carl Schmitt's terms, is *nomos* as the spatialised normativity of sociality. Each author considers, within the practical and theoretical constraints of their topic, the question of what *nomos* in its modern configuration may or may not contribute to a thinking of spatial justice after apartheid. On the whole, the collection forces a confrontation between law's spatiality in a postcolonial era, on the one hand, and the traumatic legacy of what Paul Gilroy has called the colonial *nomos* on the other hand. In the course of this confrontation, critical questions of continuation, extension, disruption and rewriting are raised and confronted in novel and innovative ways that both challenge Schmitt's account of *nomos* and affirm the centrality of the constitutive relation between law and space. The book promises to resituate the trajectory of *nomos* while considering critical instances through which the spatial legacy of apartheid might at last be overcome. This interdisciplinary book will appeal to scholars of critical legal theory, political philosophy, aesthetics and architecture.

Local Government and the COVID-19 Pandemic Carlos Nunes Silva, 2022-05-03 The book provides a global perspective of local government response towards the COVID-19 pandemic through the analysis of a sample of countries in all continents. It examines the responses of local government as well as the responses local government developed in articulation with other tiers of government and with civil

society organizations and explores the social economic and policy impacts of the pandemic The book offers an innovative contribution on the role of local government during the pandemic and discusses lessons for the future The COVID 19 pandemic had a global impact on public health in the well being of citizens in the economy on civic life in the provision of public services and in the governance of cities and other human settlements although in an uneven form across countries cities and local communities Cities and local governments have been acting decisively to apply the policy measures defined at national level to the specific local conditions COVID 19 has exposed the inadequacy of the crisis response infrastructures and policies at both national and local levels in these countries as well as in many others across the world But it also exposed much broader and deeper weaknesses that result from how societies are organized namely the insecure life a substantial proportion of citizens have as a result of economic and social policies followed in previous decades which accentuated the impacts of the lockdown measures on employment income housing among a myriad of other social dimensions Besides the analysis of how governments and local government responded to the public health issues raised by the spread of the virus the book deals also with the diversity of responses local governments have adopted and implemented in the countries regions cities and metropolitan areas The analysis of these policy responses indicates that previously unthinkable policies can surprisingly be implemented at both national and local levels

Mbeki and After Daryl Glaser, 2010-10-01 For nearly ten years indeed more if we include his period of influence under Mandela s presidency Thabo Mbeki bestrode South Africa s political stage Despite attempts by some in the new ANC leadership to airbrush out his role there can be little doubt that Mbeki was a seminal figure in South Africa s new democracy one who left a huge mark in many fields perhaps most controversially in state and party management economic policy public health intervention foreign affairs and race relations If we wish to understand the character and fate of post 1994 South Africa we must therefore ask What kind of political system economy and society has the former President bequeathed to the government of Jacob Zuma and to the citizens of South Africa generally This question is addressed head on here by a diverse range of analysts commentators and participants in the political process Amongst the specific questions they seek to answer What is Mbeki s legacy for patterns of inclusion and exclusion based on race class and gender How if at all did his presidency reshape relations within the state between the state and the ruling party and between the state and society How did he reposition South Africa on the continent and in the world This book will be of interest to anyone wishing to understand the current political landscape in South Africa and Mbeki s role in shaping it
